The following Degrees and Licences in Medicine and Surgery are granted by the University of Dublin, and are entitled to be registered under the Medical Act:—(1.) Bachelor in Medicine; (2.) Doctor in Medicine; (3.) Bachelor in Surgery; (4.) Master in Surgery; (5.) Licentiate in Medicine; (6.) Licentiate in Surgery. The qualifications requisite for these Licences and Degrees are the following:—

I.—BACHELOR IN MEDICINE.

Qualification in Arts.—The Bachelor in Medicine must be a Bachelor in Arts of Dublin, Oxford, or Cambridge.

Qualification in Medicine.—Four years, at least, spent in the study of Medicine, including the following Courses of Lectures:—1. Anatomy; 2. Practical Anatomy; 3. Surgery; 4. Chemistry; 5. Materia Medica and Pharmacy; 6. Institutes of Medicine; 7. Practice of Medicine; 8. Midwifery; 9. Botany; 10. Laboratory Chemistry; 11. Medical Jurisprudence; 12. Three years' attendance on the Clinical Instruction of Sir Patrick Dun's Hospital, or other Medico-Chirurgical Hospital approved by the Board of Trinity College. 13. Certificate of personal attendance on cases of fever, specifying names and dates. 14. Six months' Practical Midwifery.

The Candidates for the Degree of M.B., must have qualified by adequate answering at two Examinations, viz.:—the Previous Medical Examination, and the Bachelor of Medicine Examination.

The Certificates of Lecturers in the following Schools are recognised by the University of Dublin:—The School of Physic, Trinity College; the School of the College of Surgeons; the Richmond Hospital, or Carmichael School; the Stevens's Hospital School; the Ledwich, or Peter-street School; the School of the Catholic University.

The following Medico-Chirurgical Hospitals are recognised by the University of Dublin:—Sir P. Dun's Hospital; Hospitals of the House of Industry (Richmond, Whitworth, and Hardwicke); Mercer's Hospital; The City of Dublin Hospital; St. Vincent's Hospital; The Meath Hospital and County of Dublin Infirmary; Jervis-street Infirmary; Dr. Stevens's Hospital; the Adelaide Hospital; the Mater Misericordiae Hospital.

II.—DOCTOR IN MEDICINE.

A Doctor in Medicine must be a Bachelor in Medicine of three years' standing, or have been qualified to take the Degree of Bachelor in Medicine for three years. He must also read a Thesis publicly before the Regius Professor of Physic, or must undergo an Examination before the Regius Professor of Physic, according to Regulations to be approved by the Provost and Senior Fellows.

III.—BACHELOR IN SURGERY.

Qualification in Arts.—The Bachelor in Surgery must be a Bachelor of Arts of Dublin, Oxford, or Cambridge.

Qualification in Surgery.—Four years' study of Surgery, and attendance on the following Courses:—1. Anatomy, One Course. 2. Theory and Practice of Surgery, Two Courses. 3. Demonstrations and Dissections, Three Courses, each of six months. 4. Practice of Medicine, One Course. 5. Chemistry, One Course. 6. Materia Medica, One Course. 7. Midwifery, One Course. 8. Laboratory Chemistry, One Course. 9. Botany, One Course. 10. Medical Jurisprudence, One Course. 11. Attendance on the Clinical Instruction of three years in Sir Patrick Dun's or other recognised Medico-Chirurgical Hospital. 12. Six months' Practical Midwifery. 13. Three months' Ophthalmic Surgery.

Having completed the foregoing Courses, the Candidate for this Degree must pass a public Examination, partly written and partly oral.

IV.—MASTER IN SURGERY.

A Master in Surgery must be a Bachelor in Surgery of three years' standing, or have been qualified to take the degree of Bachelor in Surgery for three years; and must read a Thesis publicly before the Regius Professor of Surgery, or undergo an examination before the Regius Professor, according to regulations to be approved by the Provost and Senior Fellows.

V.—LICENTIATE IN MEDICINE.

Qualification in Arts.—The Licentiate in Medicine must have kept two complete years in Arts.

Qualification in Medicine.—Same as the qualification for the Degree of Bachelor in Medicine; viz., attendance on the prescribed Courses of instruction, and the passing of a similar public Examination.

VI.—LICENTIATE IN SURGERY.

Qualification in Arts.—The Licentiate in Surgery must have kept two complete years in Arts. *Qualification in Surgery.*—Same as for the Degree of Bachelor of Surgery—viz., attendance on the prescribed Courses of instruction, and the passing of a similar public Examination.

The Licences in Medicine and Surgery of the University of Dublin are recognised by the Boards of Examiners of the Navy, Army, and East Indian Army, and entitle the holder to register under the provisions of the Medical Act of 1858.

PRIVILEGES OF MATRICULATED MEDICAL STUDENTS.

Medical Students, being Junior or Senior Sophisters on the College Books, are exempted from the Classics of the Junior Sophister year, and from one of the three optional Courses (Mathematical Physics, Experimental Physics, or Classics) of the Senior Sophister year. To obtain this privilege it is necessary that the Student be matriculated in Medicine, and that the proper certificates of his attendance on Medical Lectures are submitted to the Senior Lecturer.

Students in Arts who are also matriculated in Medicine, having their names on the College Books, will be permitted to attend one Course free of expense, with the Professor of Botany, and are entitled to attend the Lectures of the Professor of Chemistry and Professor of Surgery on payment of half fees.

By the Act 40 Geo. III., c. 84, the several Lecturers and Professors of the School of Physic are bound during each Medical Session to return to the Senior Lecturer the names of such Students as have attended their Lectures.

The total expense of obtaining the degrees of Bachelor in Arts, Bachelor in Medicine, and Bachelor in Surgery is two hundred guineas.

The Candidates for the Medical and Surgical Licences of the University of Dublin are subject to the College discipline during their Course.

To have passed in one of the Colleges of the Queen's University the Entrance Examination in Arts, and to have been admitted a Matriculated student of the University. 2. To have attended, in one of the Queen's Colleges, lectures on one Modern Continental Language for six months, and Lectures on Natural Philosophy for six months. 3. To have also attended, in some one of the Queen's Colleges, at least two of the courses of Lectures marked with an asterisk in the following lists. For the remainder of the courses, authenticated certificates will be received from the Professors or Lecturers in Universities, Colleges, or Schools, recognised by the Senate of the Queen's University in Ireland. 4. To pass Three University Examinations—the First University Examination, the Second University Examination, and the Degree Examination.

The Curriculum extends over at least four years, and is divided into Periods of at least two years each. Candidates are recommended to pass the Matriculation Examination, prior to entering on the Second Period. It is recommended that the First Period shall comprise attendance on the following courses of Medical Lectures:—*Chemistry, *Botany, with Herborizations for practical study, and Zoology, *Anatomy and Physiology, *Practical Anatomy, *Materia Medica and Pharmacy. And that the Second Period shall comprise attendance on the following courses of Medical Lectures:—Anatomy and Physiology, Practical Anatomy, *Theory and Practice of Surgery, *Midwifery, *Theory and Practice of Medicine, *Medical Jurisprudence.

In addition to the above courses of lectures, Candidates must attend, during either the First or Second Period—*A Modern Continental Language* (in one of the Colleges of the University). *Experimental Physics* (in one of the Colleges of the University). Also, during the First Period—*Practical Chemistry* (in a recognised Laboratory). *Medico-Chirurgical Hospital* (recognised by the Senate), containing at least sixty beds; together with the Clinical lectures therein delivered, at least two each week—a Winter Session of six months. And during the Second Period—*Practical Midwifery*. A certificate of having attended at a recognised Midwifery Hospital, with the Clinical lectures therein delivered,

for a period of three months; or of having attended a Midwifery Dispensary for the same period; or of having attended ten cases of Labour, under the superintendence of the Medical Officer of any Hospital or Dispensary where cases of Labour are treated. *Medico-Chirurgical Hospital* (recognised by the Senate) containing at least sixty beds; together with the Clinical lectures therein delivered—eighteen months; including either three Winter Sessions of six months each, or two Winter Sessions of six months each, and two Summer Sessions of three months each.

English Composition forms a part of all University Examinations.

Candidates for Honors must satisfy the Examiners at the Pass Examination before they are admitted to compete for Honors; and their answering at the Pass Examination is taken into account in determining the class of Honors to be awarded to them.

Medical Examinations are held in June and in September and October. The June Examinations are Pass Examinations: those held in September include both Honor and Pass Examinations. Each Candidate for Examination in June must forward to the Secretary, on or before the first of June, notice of his intention to offer himself as a Candidate, along with his Certificates; and each Candidate for Examination in September must forward similar notice, along with his Certificates, on or before the first of September.

The First University Examination may be passed either in June or September. It comprises the following subjects:—A Modern Language, Experimental Physics, Zoology and Botany. It is competent for Students to present themselves for examination in this group of subjects at any time after the close of the first Winter Session. Before being admitted to Examination, each Candidate must produce satisfactory evidence of having completed the prescribed courses of study in the subjects of Examination.

The Second University Examination may be passed either in June or September. It comprises the following subjects:—Anatomy, Physiology, Materia Medica, and Chemistry; to which are added Zoology and Botany in the examination of Candidates who have not previously passed the First University Examination. Candidates who are in this position may either undergo their Examination in Modern Languages and Experimental Physics as a part of the Second University Examination, or may present themselves for examination in these subjects at any time between the Second University Examination and the Degree Examination. It is competent for students to present themselves for the Second University Examination at the termination of the First Period of the Curriculum, or at any subsequent period; but no Student is allowed to postpone his Second University Examination until the time when he presents himself for his Degree Examination.

Before being admitted to Examination, each Candidate must produce satisfactory evidence of having completed the course recommended for study during the First Period of the Curriculum extending over at least two Winter Sessions.

Examinations for the Degrees of M.D., M. Ch., and the Diploma in Midwifery, are held in June and September.

The Fee for each Degree is Five Pounds, and the Fee for the Diploma in Midwifery is Two Pounds. Each Fee must be lodged with the Secretary before the corresponding Examination begins.

Each Candidate must be recommended by the President of his College, and produce certificates to the following effect:—1. A certificate from the Secretary of the Queen's University, that he has passed the previous Examinations, unless the Senate has passed a Grace permitting the Candidate to present himself for the Examinations simultaneously. 2. From the Council of his College, that he has passed a full Examination in the subjects of study prescribed for the entrance course of the Faculty of Arts, and has been admitted a Matriculated student in the Faculty of Medicine. 3. That he has attended in the Colleges of the Queen's University two of the courses marked with an asterisk, and also lectures on one Modern Language, and lectures on Experimental Physics. 4. Certificates that he has completed all other prescribed Courses.

Degrees in Surgery and Diplomas in Midwifery are conferred only on Candidates who hold the Degree of Doctor in Medicine of the University.

The Examination for the Degree of M.D. comprises the subjects recommended for study during the Second Period of Medical Education.

The Examination for the Degree of M.Ch. comprises an examination in the Theory and Practice of Surgery, including Operative and Clinical Surgery.

The Examination for the Diploma in Midwifery comprises an examination in the Theory and Practice of Midwifery, and the use of obstetrical instruments and appliances.

REGULATIONS AS TO THE RECEPTION OF CERTIFICATES FROM MEDICAL LECTURERS AND HOSPITALS.

Colleges or Schools seeking recognition from the Queen's University, are required to send in the names and qualifications of the several Lecturers, with such particulars as the Senate may require. And in the event of the Lecturers being changed a fresh recognition must be sought.

KING AND QUEEN'S COLLEGE OF PHYSICIANS IN IRELAND.

Visitors.—Lord High Chancellor of Ireland; Lord Chief Justice Queen's Bench; Lord Chief Justice Common Pleas; Chief Baron Exchequer.

THE COLLEGE OF PHYSICIANS IN DUBLIN was founded in 1660 by Dr. JOHN STEARNE, Fellow and Professor of Physic in Trinity College, Dublin; was incorporated by Royal Charter of KING CHARLES II. A.D. 1667; and re-incorporated by their Majesties KING WILLIAM and QUEEN MARY, A.D. 1692, under the title of "THE KING AND QUEEN'S COLLEGE OF PHYSICIANS IN IRELAND."

REGULATIONS RELATIVE TO THE LICENCE IN MEDICINE.

Examinations for the Licence in Medicine are statedly held on the second Tuesday and following day in each month (except August and September).

The name of every Candidate, together with his Schedule* and the documents hereafter mentioned, must first be submitted to the College at one of its Meetings. These are held regularly on the first Friday in each month (except August and September), and no name can be received later than the Monday previous to such Meeting. If permission to be examined is granted, the Candidate may present himself at the next Examination, or at a subsequent one: in the latter case, however, he must intimate his intention four clear days before the Examination.

A Candidate who has not, previous to entering his name, obtained any of the Medical or Surgical Qualifications recognised by the College must produce—1. Evidence of having been engaged in the Study of Medicine for four years. 2. A Certificate of having passed the Preliminary Examination of one of the recognised Licensing Corporations before the termination of the second year of medical study. 3. Certificates of having studied at a school or schools recognised by the College the following subjects, viz.:—Practical Anatomy; Anatomy and Physiology, or Institutes of Medicine; Botany; Chemistry; Practical Chemistry; *Materia Medica*; Practice of Medicine and Pathology; Surgery; Midwifery; Medical Jurisprudence. 4. Certificates of having attended a Medico-Chirurgical Hospital in which regular Courses of Clinical Lectures are delivered, together with Clinical Instruction, for twenty-seven months; or such Hospital for eighteen months, with nine months' attendance on a Medical Hospital, and similar courses of Clinical Lectures and Clinical Instruction; the attendance in each case being for *not more than nine months in any year*—namely, for six winter and three summer months—and the attendance on a Medico-Chirurgical Hospital and Medical Hospital not being taken out in the same year. 5. A certificate of having attended Practical Midwifery for six months at a recognised Lying-in Hospital, or evidence satisfactory to the College in each individual case of having attended Practical Midwifery. 6. Certificates of character from two registered Physicians or Surgeons.

A Candidate who has already obtained a Medical or Surgical Qualification recognised by the College, is required to fill up a Schedule which will be supplied on application, and to lodge it in the same manner as a Candidate not previously qualified; but the only documents he is required to produce are his Diploma or Certificate of Registration, and the Certificate of Practical Midwifery, and Testimonials as to character.

EXAMINATION FOR THE LICENCE IN MEDICINE.

The Examination is conducted, first, clinically; secondly, by printed questions, to be answered in writing; and, thirdly, *visu roce*, and consists of two parts. The subjects of the First Part or previous Examination are—Anatomy; Physiology; Botany; Chemistry. The subjects of the Second Part, or Final Examination, are—*Materia Medica*; Practice of Medicine; Medical Jurisprudence; Midwifery.

Candidates for the Second or Final Examination are examined in the Practice of Medicine at the bedside in one of the Dublin Hospitals. The name of the Hospital selected will not be declared to the Candidates until half an hour previous to the time of examination.

Candidates qualified as follows are required to undergo the *second part* of the professional Examination only, viz.:—1. Graduates in Medicine of a University in the United Kingdom, or of any foreign University approved by the College. 2. Fellows, Members, or Licentiates of the Royal Colleges of Physicians of London or Edinburgh, who have been admitted upon examination. 3. Graduates or Licentiates in Surgery. 4. Candidates who, having completed the Curriculum as required by the Regulations, have passed the Previous Examination of any of the Licensing Corporations in the United Kingdom.

Candidates who are Physicians or Surgeons of five years' standing are further exempted from the clinical and written portions of the Final Examination.

DECLARATION REQUIRED OF CANDIDATES.

"I do hereby solemnly and sincerely promise that I will observe the Statutes and By-laws of this College, and to my power endeavour that the honour of the College be preserved entire; and in all things that belong to the honour or profit thereof, I shall be ready to give my advice and assistance.

* Blank Schedules are to be obtained on application at the College, or by letter, addressed to the Registrar, College Hall, Kildare-street. It is particularly requested that Candidates applying by letter will state whether they already possess any qualification, as the form of Schedule for those who have, differs from that required to be filled up by those who have not, obtained any Diploma.

"I hereby authorize the President and Fellows of the King and Queen's College of Physicians in Ireland to erase my name from the list of Licentiates, and I consent to surrender the Diploma received from the College, if I shall, after having obtained the licence of said College, keep open shop for the sale of medicines.

"I engage not to endeavour to obtain practice, or to attract public notice, by any unworthy means: I also engage that I will neither permit nor sanction the use of my name by any other person for such purposes, nor in connexion with any secret remedy; and in case of any doubt relative to the true meaning or application of this engagement, I promise to submit to the judgment of the College.

"And I solemnly and sincerely declare, that should I violate any of the conditions specified in this declaration, so long as I shall be either a Licentiate or Fellow of the College, I thereby render myself liable, and shall submit, to censure of the College, or to expulsion and surrendering of the Diploma, whichever the President and Fellows of the College shall think proper to inflict."

REGULATIONS RELATIVE TO THE DIPLOMA IN MIDWIFERY.

Examinations for the Diploma in Midwifery are held every month (except August and September), on the day after that on which the Stated Examinations for the Licence in Medicine are held.

A Candidate for the Diploma in Midwifery, who is already a Licentiate of the College, is at liberty to present himself at any of the Examinations, provided he intimate his intention a week previously.

Candidates for the licence in Midwifery, who are not Members of the College, are required to fill up a Schedule, and apply for permission in the same way as Candidates for the Licence in Medicine, and will be admitted to Examination on the following qualifications:—The Degree or Licence in Medicine or Surgery from any University or College of Physicians or Surgeons in the United Kingdom, together with certificates of having attended a six-months' course of lectures on Midwifery, and at least thirty cases of Labour, and certificates of character from two registered practitioners. A declaration similar to that made by the Candidate for the Licence in Medicine is also required from the Candidate for the Licence in Midwifery.

FEEs.

Fee for the Licence in Medicine, 1*l.* 1*s.* Fee for the Diploma in Midwifery, 3*l.* 3*s.* Fee for Licence in Medicine, and Diploma in Midwifery, if taken out within an interval of a month, 1*l.*

All Fees should be lodged to the credit of the King and Queen's College of Physicians, in the Royal Bank, Foster-place, Dublin, and the receipt given by the Bank deposited at the College a week before the day of Examination. Candidates at a distance may forward the Fee to the Registrar by crossed cheque, payable to the Treasurer of the College.

The Admission Fee, with the exception of 3*l.* 3*s.* deducted to meet the expense of the Examination, may be returned to any Candidate who may be rejected for the Licence in Medicine; and the Admission Fee, with the exception of 1*l.* 1*s.* deducted to meet the expense of the Examination, may be returned to any Candidate for the Licence in Midwifery who may be rejected; and in the case of a rejected Candidate afterwards presenting himself for Examination in Medicine or Midwifery within twelve months, the sum previously deducted of 3*l.* 3*s.* in regard to the Examination in Medicine, or of 1*l.* 1*s.* in regard to the Examination in Midwifery, will be allowed in the Fee paid for such second Examination.

For further particulars, see page 1283.

Registration of Pupils.—Every person requiring to be registered as a pupil on the College Books shall, if the Council think fit, be so registered, if he shall have laid before the Council a receipt showing that he has lodged to the credit of the President, and for the use of the College, in the Bank of Ireland, a registry fee of five guineas.

Qualifications of Candidates for Letters Testimonial.—Candidates for the Letters Testimonial of the College may present themselves either at a special or at a stated examination, as follows:—

Special Examinations.—Every registered pupil shall be admitted, upon payment of a special fee of Five Guineas, to a special examination for Letters Testimonial if he shall have laid before the Council the following documents:—(a) A receipt showing that he has lodged, in addition to his registration and special fees, a sum of twenty guineas in the Bank of Ireland, to the credit of the President, and for the use of the College. (b) A Certificate that he has passed a Preliminary Examination, conducted by a Board recognised by the General Medical Council, into the curriculum of which the Greek language enters as a compulsory subject. (c) A Certificate showing that he has been engaged in the study of his profession for not less than four years. (d) Certificates of attendance during three years on an Hospital recognised by the Council, where Clinical instruction is given. (e) Certificates of attendance on three courses of Lectures on Anatomy and Physiology, three courses of lectures on the Theory and Practice of Surgery, and of the performance of three courses of Dissections, accompanied by demonstrations; also Certificates of attendance on two courses of lectures on Chemistry, or one course of lectures on General, and one on Practical Chemistry, one course of lectures on Materia Medica, one course of lectures on the Practice of Medicine, one course of lectures on Midwifery, one course of lectures on Medical Jurisprudence, and one course of lectures on Botany.

N.B.—The subjects for examination, and the mode of carrying these out, for a special Examination, will be the same as those hereinafter laid down for the Stated Examinations, and any rejected Candidate will only be entitled to receive back fifteen guineas of the fees lodged by him.

Stated Examinations.—1st. Stated Examinations shall be held in the months of April, July, and November, commencing on dates of which due notice shall be given beforehand by the Council of the College, and to which Candidates cannot be admitted unless they be registered pupils, and at which they shall be divided into two Classes—Junior and Senior. 2nd. The Junior Class shall produce Certificates of having passed a preliminary Examination conducted by a board recognised by the General Medical Council, into the curriculum of which the Greek language enters as a compulsory subject; and of having attended three courses of Lectures on Anatomy and Physiology, three courses of Lectures on Practical Anatomy, with dissections; two courses of Lectures on Chemistry, one course of Lectures on Materia Medica, one course of Lectures on Botany, and one course of Lectures on Forensic Medicine. 3rd. This Class shall be examined in Anatomy, Histology, Physiology, Materia Medica, and Chemistry. 4th. The Fee for this examination shall be five guineas; in addition to the Registration fee of five guineas: not to be returned in case of rejection, but to be allowed the Candidate in case he presents himself a second time for examination. 5th. The Senior Class shall produce certificates of having attended three courses of Lectures on the Theory and Practice of Surgery, one course of Lectures on the Practice of Medicine, and one course of Lectures on Midwifery; also certificates of attendance on a recognised Hospital for three Winter and three Summer Sessions. 6th. This Class shall be examined in Surgery, Operative Surgery and Surgical Appliances, Practice of Medicine, Medical Jurisprudence and Prescriptions. 7th. The fee for the Senior Class Examination shall be fifteen guineas; returnable to the candidate in case of rejection. 8th. Both of these Examinations shall be conducted partly by Written and partly by Oral Questions. 10th. In addition to the foregoing fees, a fee of one guinea is to be paid to the Registrar, on handing each Licentiate his Diploma. 11th. Every Candidate rejected at any of the stated Examinations, on applying for re-examination, shall be required to pay to the College, in addition to the regular fees, the sum of two guineas to re-imburse the College the necessary expense of his re-examination.

Qualifications of Candidates for the Fellowship.—Every registered Pupil or Licentiate shall be admitted to examination for the Fellowship, if he shall have laid before the Council the following documents:—(a) A receipt, showing that he has lodged in the Bank of Ireland, for the use of the College, if he be a Licentiate, the sum of twenty guineas, or thirty-five in case he be only a Registered Pupil; provided in either case he intends to reside beyond ten miles from Dublin. Should the candidate intend to reside in Dublin, or within ten miles thereof, he shall lodge, if he be a Licentiate, thirty guineas; or if he be only a Registered Pupil, forty-five guineas. Fellows entering on the country list, who may subsequently settle as Practitioners in Dublin, or within ten miles thereof, shall pay ten guineas to the College. (b) A certificate that he is twenty-five years of age. (c) A certificate that he is a Bachelor of Arts of some University, or that he has been examined in such manner as the Council may, from time to time direct, with a view to ascertain that he has obtained a liberal preliminary education. (d) A certificate of general good conduct during his professional education; to be signed by two or more Fellows of the College. (e) Certificates of attendance on the several courses of lectures required to be attended by candidates for Letters Testimonial, together with one course of lectures on Comparative Anatomy, and one course of lectures on Natural Philosophy. (f) A thesis on some Medical subject; or, Clinical Reports, with observations of six or more Medical or Surgical cases taken by himself. (g) Candidates of the required age, who shall have taken the degree of Bachelor of Arts in a British or Irish University, and have complied with the foregoing regulations in other respects, will be admitted to examination at the end of five years of professional study, of which three years must have been passed in one or more of the recognised Schools or Hospitals. (h) Candidates of the required age who have not taken the degree of Bachelor of Arts in a British or Irish University, must, in addition to the foregoing, produce Certificates that they have been engaged in the acquisition of professional knowledge for a period of not less than six years, during three of which they must have studied in one or more of the Schools and Hospitals recognised by the Council. They may have studied for the other three years in any School or Schools of the United Kingdom which shall be approved by the Council, or in any foreign School of repute. It is also required that the candidate shall have had opportunities of practical instruction, as House-Surgeons or Dressers, in a recognised Hospital. (i) Licentiates of the College, who may not be able to show that they have followed the course of study specified in the preceding regulations, may, at the expiration of ten years from the date of their diploma, be admitted to the examination required for the Fellowship, provided they produce such

evidence as shall be satisfactory to the Council that they have conducted themselves honourably in the practice of their profession.

Qualifications of Candidates for the Diploma in Midwifery.—Any Fellow or Licentiate of the College shall be admitted to an examination for the Diploma in Midwifery upon laying before the Council the following documents:—(a) A certificate, showing that he has attended one course of lectures on Midwifery and Diseases of Women and Children, delivered by a Professor or Lecturer in some School of Medicine or Surgery recognised by the Council. (b) A certificate, showing that he has attended during a period of six months the practice of a Lying-in Hospital recognised by the Council; or the practice of a Dispensary for Lying-in Women and Children, recognised by the Council and devoted to this branch of Surgery alone. (c) A certificate, showing that he has conducted thirty labour cases at least.

Fees to be paid by Candidates for the Diploma in Midwifery.—The Candidate pays 1s. 6d. for the Midwifery Diploma, provided he takes it out within one month from the date of his Letters Testimonial; after that date the Fee will be 2s. 2s.

Examination of Candidates for the Letters Testimonial.—Examinations of Candidates for Letters Testimonial, special and stated, shall be held from time to time, as the Council may direct. Five Examiners at least shall be present at each examination. Each candidate shall be examined upon Anatomy, Physiology, Histology, the Theory and Practice of Medicine and Surgery, Materia Medica, Chemistry, Medical Jurisprudence, and the form of Prescription Writing; and shall perform such Surgical Operations and Dissections, and explain such Anatomical and Pathological preparations and Surgical appliances as the Examiners may require. Candidates for the Letters Testimonial of the College, being Licentiates of a College of Physicians or Graduates in Medicine of a University recognised by the Council of the College, shall be examined in General and Descriptive Anatomy, Histology, Physiology, the Theory and Practice of Surgery, Operative Surgery, and Surgical Appliances; and if, after examination on these subjects, they be recommended to the Council by the Court of Examiners for admission as Licentiates, they shall be so admitted by the Letters Testimonial of the College. In addition to the oral examinations, candidates for Letters Testimonial shall be required to give written answers to written or printed questions to be delivered to them in such manner as the Council may from time to time direct. Candidates whose answering shall be found insufficient will not be allowed to present themselves a second time until after the expiration of three months from their first examination, if the rejection takes place at any one of the Stated Examinations, or six months if it occurs at a Special Examination.

Order of Stated Examinations.—Candidates for Examination must return their Names to the Registrar of the College, and lodge their Fees and Certificates one clear week before the day specified for Examination; and no Candidate who has not so returned his name can be, under any consideration, admitted to these examinations. Each Candidate shall have a number assigned to him, by which alone he will be recognised during the examination.

Examination of Junior Class.—The Candidates shall be examined in alphabetical order, and the examination shall occupy three days, thus to be allotted:—1st day. Dissections on the Subject. 2nd day. Written Examination on Anatomy, Physiology, Histology, Materia Medica, and Chemistry. 3rd day. Viva Voce Examination on the same subjects. No Candidate will be allowed to proceed to the second day's examination who has not passed the first, or to the third who has not passed the second day's examination. First Day. Two or more subjects shall be provided for each examination, two Examiners and six Candidates being allotted to each of the subjects, the hours of examination being from 10 to 12 A.M., 12 to 2, and 2 to 4 o'clock P.M. Each Candidate is first to make a dissection of a region allotted to him, half an hour, at least, being given him for this purpose. Then he is to be examined on the Anatomy of that part, as well as upon that of those other regions which may have been dissected by other of the Candidates. The viva voce part of this examination is to be conducted by the two Examiners conjointly, one Candidate only being thus examined at a time on each subject. Second Day. Four hours shall be devoted to the written examination, which are to be thus allotted: Two hours, from 10 to 12 o'clock A.M. to Anatomy and Histology; and two hours, from 2 to 4 o'clock P.M., to Physiology, Materia Medica, and Chemistry. Eight questions in Anatomy shall be printed and given to each Candidate. These questions are to be such as all Candidates may be fairly expected to answer, an answer to four of them only being required. If any Candidate has completed his paper before the end of the two hours, he may leave the hall upon handing his answers to the Examiner. The examination in Histology shall be a part of the written examination, and shall be thus conducted:—Two slides of different subjects are to be placed under two microscopes, and marked A. B. Five minutes are to be allowed each Candidate to examine them; he is then to go to his place and write his answer. Two similar slides are to be placed at the other end of the table, marked in the same way, which are to be examined by the Candidates in a similar manner. The presiding Examiner shall see that there is no communication between the Candidates, and each Candidate shall separately inspect either set of slides. During the second two hours (2 to 4 o'clock) three questions in Physiology, two in Materia Medica, and two in Chemistry, shall be given, which questions also shall be such as all Candidates may be fairly expected to answer. Third Day. The seven Examiners shall be summoned to attend on each day devoted to the viva voce examinations, at 4 o'clock P.M., to commence the oral examinations of the several Candidates; and four of the Examiners shall each be required to examine each Candidate for one quarter of an hour, at four separate tables, viz., three on Anatomy and Physiology, and one on Materia Medica and Chemistry.

Examination of Senior Class.—The Candidates shall be examined in alphabetical order, and the examination of each Candidate shall occupy four days, thus to be allotted:—1st day. Written Examination on Surgery, Practice of Medicine, Medical Jurisprudence, and Prescriptions. 2nd day. Viva Voce Examination on Surgery and Practice of Medicine. 3rd day. Clinical Exam-

nation. 4th day. Operative Surgery. First Day. Four hours shall be devoted to the Written Examinations, which are thus to be allotted: From 10 to 12 o'clock A.M. to Surgery. The number of Surgical questions shall be six, all of them being such that a Candidate qualified to practise may be fairly expected to answer in the allotted time. From 2 to 4 o'clock P.M. to Practice of Medicine, Medical Jurisprudence, and Prescriptions. Two printed questions shall be given in Practice of Medicine, two in Medical Jurisprudence, and two in Prescriptions, all of them being such that a Candidate qualified to practise may be fairly expected to answer in the allotted time. Second Day. The Viva Voce Examination on Surgery and Practice of Medicine is to be conducted by four of the Examiners, who shall each be required to examine, at separate tables, each of the Candidates, for one quarter of an hour, as to their knowledge of these subjects. Third Day. At the Clinical Examination two Examiners are to be allotted to each batch of Candidates, and the number of Candidates in each batch is not to exceed ten. No Candidate is to be examined in the hospital where he has been educated. The name of the hospital where each batch of Candidates is to assemble for Examination is to be posted in the hall of the College, immediately before the hour of meeting there. Each Candidate is to take notes of a case allotted to him, to be questioned upon that or some other case, and to be called upon to bandage or apply some surgical appliance. Fourth Day. The Examinations in Operative Surgery shall be conducted by the four Surgical Examiners, who shall meet previously for the purpose of comparing their questions, which shall then be written upon cards, to be deposited in a balloting-box, from which each Candidate, as called up, shall be required to draw his question, and to perform the operations there indicated. Each Candidate is to be required to perform two operations. He is to be questioned upon these or other operations, and to be examined as to his knowledge of Surgical Instruments and Appliances. No Candidate is to be allowed to present himself for examination after the first day who has not satisfied his Examiners upon the previous day; but all Candidates who have passed any of these days examinations shall get credit for same. When presenting themselves upon a subsequent occasion a former Candidate will only be required to present himself upon that portion of the examination in which he had been remitted.

Examination of Candidates for the Fellowship.—Examinations for the Fellowship shall be held from time to time as the Council may direct. Five Examiners at least, together with the President, or Vice-President, and two members of the Council, must be present at each examination. Each candidate shall be examined on two days, with such an interval as the Council may appoint. The subjects of the first examination shall be Anatomy and Physiology (human and comparative); those of the second, Pathology, Therapeutics, the Theory and Practice of Medicine and Surgery, and such other branch of Medical Science as the Council may from time to time direct. In addition to the oral examinations, candidates shall be required to give written answers to written or printed questions, to be delivered to them in such manner as the Council may direct. In the Anatomical examinations the candidates shall also perform dissections and operations on the dead body. Candidates whose answering shall be found insufficient will not be allowed to present themselves a second time until after the expiration of one year from the first examination.

Examination for the Diploma in Midwifery.—The examination of candidates for the diploma in Midwifery shall be conducted by the Examiners in Midwifery. Such examinations shall be held, from time to time, as the Council may direct. Candidates for the Midwifery Diploma shall be publicly examined on the organization of the Female; the growth and peculiarities of the Fœtus; the Practice of Midwifery, and the Diseases of Women and Children; and, if approved of, shall receive a Licence or Diploma certifying the same. Should a candidate be rejected, he shall not again be admitted to an examination until a period of three months shall have elapsed; and he then shall be obliged to produce satisfactory evidence of his having been engaged in the study of this branch of Surgery subsequent to such rejection.

General Regulation of Schools.—Certificates shall not be received for attendance on Lectures delivered in Ireland, unless from Teachers in Schools permitting the visitation of the Council, and receiving their sanction; nor shall certificates be received from Teachers who deliver Lectures upon more than one distinct subject, as hitherto allotted to Professors in Colleges and Universities. This regulation shall not, however, exclude the certificates of two or more Teachers, who may deliver conjointly, separate, perfect, and distinct courses on Anatomy and Physiology, and on the Theory and Practice of Surgery. Certificates of attendance on Lectures and of the performance of Dissections, shall be received from Professors and Lecturers in all Universities, Colleges, and recognised Schools in her Majesty's dominions, as qualifications for the Fellowship and Letters Testimonial of this College; and also certificates of attendance on all Hospitals recognised by the Council, where Clinical instruction is given. The Lectures on Materia Medica, Medical Jurisprudence, Practical Chemistry, and Botany, shall be delivered during the Summer Session in the School of the College, and in the Schools recognised by the College. Certificates shall not be received for attendance on Lectures, unless such Lectures shall have been delivered by persons who shall have acquired, either by education or practice, such ample information on professional subjects generally as is required from candidates for the Fellowship of the College, and who shall have enjoyed such opportunities of acquiring information on the particular subjects upon which they propose to lecture, as the Council may consider necessary to qualify them to perform that duty.

Professors and Lecturers are required to transmit to the College, on or before 25th of November in each year, returns of the names of the pupils who shall have entered to attend, and are then actually attending, their respective Lectures or Demonstrations. They are also required to ascertain, from time to time, whether the students so returned are in attendance or not, as similar returns are required in the course of the session. Certificates of attendance are not received as qualification for the Letters Testimonial or Fellowship of the College unless the name of the candidate who produces them appears in these returns for the periods corresponding to the dates of such certificates.

REGULATIONS REGARDING THE EDUCATION, QUALIFICATION, AND EXAMINATION OF CANDIDATES FOR THE LICENCE TO PRACTISE AS AN APOTHECARY.

Candidates for the Licence of the Hall must undergo a preliminary and a professional examination.

PRELIMINARY EDUCATION AND EXAMINATION IN ARTS.

An Examination in Arts will be held in the Hall four times in the year, namely, upon the third Thursday in January, April, July, and October, at twelve o'clock noon. This examination will be conducted by Graduates in Arts of the University of Dublin, with Assessors from the Court of the Hall. On and after the 20th day of April 1872, the *Arts Course* will be as follows: *Compulsory*.—1. English Grammar, Composition, Writing from Dictation, and the leading events of Roman and English History. 2. Arithmetic and Algebra, to Simple Equations. 3. Geometry: First Two Books of Euclid. 4. Latin: The Twenty-First Book of Livy, or the first Three Books of the *Æneid* of Virgil. 5. Greek: the first Two Books of the *Anabasis* of Xenophon, or the Ninth Book of the *Iliad* of Homer. 6. French: Charles XII., of Voltaire, or "Voyage en Orient," of Lamartine. 7. German: "Wilhelm Tell," of Schiller. Candidates will be examined in French or German, as they may select.

Optional.—1. Natural Philosophy: Mechanics, Hydrostatics, and Pneumatics. 2. Natural History: The Classification, Elementary Structure, and General Physiology of Vegetables and Animals.

PROFESSIONAL EDUCATION AND EXAMINATIONS.

Candidates for the Licence to practise must produce certificates to the following effect:—1. Of having passed an Examination in Arts previously to entering on professional study.—2. Of being at least twenty-one years of age, and of good moral character.—3. Of Apprenticeship to a qualified Apothecary or of having been engaged at practical Pharmacy with an Apothecary for a period of three years subsequent to having passed the Examination in Arts.—4. Of having spent four years in Professional Study.—5. Of having attended the following courses, viz.:—Chemistry, during the Winter Session; Anatomy and Physiology, two Winter Sessions; Demonstrations and Dissections, two Winter Sessions; Botany and Natural History, one Summer Session; *Materia Medica* and Pharmacy, with instructions in a Laboratory, three Months; Practical Chemistry, three Months; Principles and Practice of Medicine, one Winter Session; Midwifery and Diseases of Women and Children, Six Months; Practical Midwifery, at a recognised hospital, attendance upon twenty Cases; Surgery, one Winter Session; Forensic Medicine, one Summer Session; Instruction in the practice of Vaccination.—6. Of having attended, at a recognised Hospital or Hospitals, the Practice of Medicine and Clinical Lectures on Medicine during two Winter and two Summer Sessions; also the Practice of Surgery and Clinical Lectures on Surgery during one Winter and one Summer Session.—7. Of having performed the operation of vaccination successfully under a recognised vaccinator. The examination for the Licence to practise is divided into two parts. The First—Chemistry, Botany, Anatomy, Physiology, *Materia Medica*, and Pharmacy. The Second—Medicine, Surgery, Pathology, Therapeutics, Midwifery, Forensic Medicine, and Hygiene. The first part may be undergone at the close of the second Winter Session, and after the Candidate has attended the Courses upon the several subjects named for this Examination, and the second after the completion of his studies at the termination of the fourth Winter Session. The professional examinations will be held quarterly, and will commence on the first and second Monday in the months of January, April, July, and October. They will be carried on as follows:—The *First Part*, for Junior Students, on the first Monday at Twelve o'clock noon; and on the Tuesday and Wednesday succeeding, at the same hour. Subjects:—Chemistry and Botany, *Monday*; Anatomy and Physiology, *Tuesday*; *Materia Medica* and Pharmacy, *Wednesday*: The *Second Part*, or *Pass Examination*, for Senior Students, on the second Monday, at Twelve o'clock, noon; and on the Tuesday and Wednesday succeeding, at the same hour. Subjects:—Medicine and Surgery, *Monday*; Midwifery and Diseases of Women and Children, *Tuesday*; Forensic Medicine and Hygiene, *Wednesday*: Clinical Examination, *Thursday*. The first two hours of each day will be devoted to writing answers, and after that, there will be an oral and practical Examination. Certificates and Diplomas will be granted to the successful Candidates on the Friday following, at three o'clock p.m. Candidates who fail to pass the first part of the Professional Examination will be remitted to their studies for three months, and unsuccessful Candidates at the Pass Examination will not be readmitted until after the expiration of six months.

Doctors of Medicine of any of the Universities of the United Kingdom, or Surgeons of any of the Royal Colleges of Surgeons, or Licentiates of any of the Royal Colleges of Physicians, whose qualifications as such appear in the Medical Register, and who, having first passed an Examination in Arts, have also served an Apprenticeship, or the required term at practical Pharmacy, to a qualified Apothecary, may obtain the Licence of the Hall by undergoing an Examination—the

former in Pharmacy,* and the latter in Medicine and Pharmacy. Licentiates of the London Society of Apothecaries are admitted *ad eundem*.

The *Licence* entitles its Possessor to practise Medicine and Pharmacy in Great Britain and Ireland, and is recognised as a full qualification in *Medicine* for appointments in the Medical Department of the Army, Navy, and under the Poor Law Boards in England and in Ireland.

Candidates for the *Licence* must lodge their Testimonials, and enrol their names and address with the Clerk at the Hall, in Dublin, a week prior to the day of Examination.

An *Honor Examination* for Apprentices is held at the Hall in the first week in May annually, upon some subject of Medical or Pharmaceutical Chemistry, which is announced by the Council of the Hall at the commencement of the previous Winter Session, and a Prize of Five Guineas is awarded to the successful Competitor.

Candidates for *The Certificate of Assistant* to an Apothecary, in compounding and dispensing Medicine, will be examined in the British Pharmacopœia and in *Pharmacy*, scientific and practical, including the history, characters, and qualities of Medicines, with their preparations and doses, and in the translation of Latin Prescriptions. Neither "The Arts Certificate," or "The Certificate of Apprentice," is required for the Examination of Assistant, but Candidates must have Certificates of having attended a Course of Practical Instruction in Chemistry and in Pharmacy in a recognised Laboratory.

* The Examination in Pharmacy will include Practical Pharmacy, Pharmaceutic Chemistry, Toxicology, Medical Botany, and the British Pharmacopœia.

LEDWICH SCHOOL OF ANATOMY, MEDICINE, AND SURGERY,
PETER-STREET, DUBLIN.

FOUNDED 1810.

This School, claiming priority of foundation many years before any of its kindred unchartered institutions were projected, was established in 1810 by J. Kirby. At this period the Schools of the College of Surgeons and University were the only sources of medical education in Ireland, and this necessarily involved an absence of that competition always so conducive to the true spirit of improvement. Since its foundation, this School has maintained its character for the sound principles of its anatomical and surgical instruction, and numbers amongst its former pupils several of the most distinguished teachers of the Irish School of Medicine.

Anatomy, Physiology, Pathology, &c.: Drs. Ledwich, T. P. Mason, Kelly, and Ward. *Theory and Practice of Surgery*: Messrs. Wharton and Barton. *Surgical and Descriptive Anatomy, Demonstrations and Dissections*: Messrs. T. P. Mason, E. Ledwich, Glanville, Ward, Robinson, Madden, F. T. Porter, Gogarty, S. R. Mason, and T. Nixon. *Theory and Practice of Medicine*: Dr. Fox. *Midwifery and Diseases of Women and Children*: Dr. J. Ringland.

Materia Medica and Therapeutics: Dr. McDowell. *Forensic Medicine and Hygiene*: Dr. E. Travers. *Chemistry, Practical Chemistry, and Natural Philosophy*: Dr. Handsel Griffiths. *Botany*: —.

Certificates of Attendance upon these lectures are recognised by the Queen's University, Ireland; the King and Queen's College of Physicians; by the University and the College of Physicians of London; Trinity College, Dublin; the Colleges of Surgeons in Dublin, London, and Edinburgh; the University of Glasgow, as constituting an "Annus Medicus;" the Faculty of Glasgow; by the Army and Navy Medical Boards; and the Apothecaries' Halls, London and Dublin.

EDWARD LEDWICH, Secretary, 7, Harcourt-st. Dublin.

The Hospital, which contains 120 beds, and to which an extensive Dispensary, Lending Library, and Physical Laboratory are attached, is within a few minutes' walk of the University, the College of Surgeons, and the Ledwich School of Medicine.

Two Medical and Two Surgical Clinical Lectures will be delivered each week.

Operations, performed on the days of Surgical Instruction. Every attention is paid to the Instruction of Pupils in the minor operations of Surgery, for which a large daily attendance of extern Patients affords ample opportunity. A Registry of all surgical cases admitted into the Hospital is carefully preserved, and is open to the inspection of the Pupils.

The Medical Clinical Instruction is given by Drs. Stokes and Foot;

The Surgical, by Messrs. Porter, Wharton, Smyly, Rawdon Macnamara, White, and Ormsby.

MERCER'S HOSPITAL, WILLIAM-STREET, DUBLIN.

ESTABLISHED 1734.

The Hospital stands in the immediate vicinity of four of the principal Medical Schools, and is recognised by all licensing bodies.

The Clinical Instruction and Lectures will be delivered as usual, by Messrs. E. Ledwich, T. P. Mason, E. S. O'Grady, J. Morgan, and B. F. McDowell.

ROYAL MEDICAL BENEVOLENT FUND SOCIETY OF IRELAND.—FOUNDED 1842 BY WILLIAM KINGSLEY, M.D., F.R.C.S.I.

Patron, H.M. Gracious Majesty the Queen. *Vice-Patron*, His Excellency the Lord Lieutenant.

OBJECT AND RULES OF THE SOCIETY.

1. That a charitable fund be created by Donations and Subscriptions, to be called the Medical Benevolent Fund of Ireland.
2. That contributions be received from all persons friendly to the objects of the Society, though not belonging to the profession.
3. That the object of the Fund be the relief of Medical men under severe and urgent distress, occasioned by sickness, accident, or any other calamity.
4. That any Physician or Surgeon labouring under such afflictions be considered a fit object for the charity.
5. That the claims of contributors shall, as far as possible, have the preference, but that contributions to the Fund give no claim of right to relief, the Fund being one of pure charity; and that each case be judged according to the urgency of the distress.
6. That under circumstances of peculiar emergency, relief may be extended to the widows and orphans (under age) of Physicians and Surgeons, it being understood that it is not the design of this Fund to relieve Medical men from the necessity of providing for their families by ordinary life assurances, or such other means as prudence dictates.
7. That the management of the Fund be conducted by Committees of the contributing members, annually appointed; the Central Committee to be at Dublin, and Local Committees, subordinate to the Central, in the principal cities and towns; the Central Committee having power to appoint Local Committees wherever they may be required.

The following are the Committee, Treasurer, Secretaries, and Trustees for the ensuing year:—

This Society was formed in 1862 by the Union of the Belfast Medical Society with the Clinical and Pathological and the Ulster Medical Protective Societies. It has for its objects to afford its members increased facilities of consulting the best medical works and periodicals, by means of the Library; of deriving mutual instruction on medical subjects by means of its discussions and its Pathological Museum; and, as a collective body, of protecting the interests of the Medical Profession. It possesses a well-selected and valuable Library of ancient and modern works, medical and scientific; a Museum, containing many rare pathological specimens, both of which are in the Society rooms in the General Hospital; and almost all the Medical Journals are kept for the convenience of members. The Society meets monthly, from May to November; and fortnightly on Wednesday, at eight p.m., from November to May. The Annual Meeting for the election of office-bearers, &c., is held on the first Monday in November, at the Society's rooms, Belfast General Hospital.

• No return from the Secretary for the present year.

THE LOCAL GOVERNMENT MEDICAL SERVICE OF Ireland,

GIVING THE NAMES OF THE COUNTIES, UNIONS, DISTRICTS, POPULATION, AREA IN ACRES, NAMES OF MEDICAL OFFICERS, AND THEIR SALARIES.

LOCAL GOVERNMENT BOARD FOR IRELAND, CUSTOM HOUSE, DUBLIN.

President, The Right Hon. the Chief Secretary to the Lord Lieutenant of Ireland, for the time being.
Vice-President, Sir Alfred Power, K.C.B.

Members of the Board, The Under Secretary to the Lord Lieutenant of Ireland, for the time being;
John McDonnell, Esq., M.D.; and Richard M. Bellew, Esq.

Private Secretary to the Vice-President, W. A. Power, Esq.

Secretary, Benjamin Banks, Esq.

Asst. Secretary, W. D. Wodsworth, Esq.

Inspectors, Richard Bourke, William J. Hamilton, Samuel Horsley, Richard Tipping Hamilton, Henry Robinson, Wm. P. O'Brien, Esqrs., Dr. Terence Brodie, Dr. Charles Croker King, Dr. George F. Roughan, and Dr. Thos. H. Burke.

Clerks, First Class, R. Barney, P. Norris, R. Hunt, D. T. Tracey, A. McHugh, and T. W. Foy, Esqrs.
Second Class, W. Ellard, R. H. Jephson, John McGloin, J. McVeigh, J. L. Browne, T. Macdonnell,

Junior Clerks, Æ. M. Byrne, W. Franklin, W. Tracy, R. Kearney, J. Brennan, jun., T. A. Mooney, H. J. Penny, J. J. Dowling, R. Cantrell, L. Leeson, J. Gilfoyle, H. M. Swaine, J. P. Clarke, and D. J. MacSheahan, Esqrs.

Auditors of Union Accounts, Reuben Simms, W. McDermott, C. Pelly, G. W. Finlay, H. M. Cruise, T. Collet, and E. J. Browne, Esqrs.

Solicitors, Messrs. Geale and Dwyer, 18, Talbot-street.

To facilitate reference to this List, the following explanation is necessary:—

1. The COUNTIES are arranged *alphabetically*; as are also the UNIONS under each County.
2. Each *paragraph* contains the particulars of *one union*. The name of the Union is given in *small capitals*, and the name of each district in *italics*. The letter P is placed before the *Population* and the letter A before the *Area* in *Acres*. Then follows the name of the Medical Officer, with the amount of his salary.

3. To a few of the Unions an asterisk * has been prefixed, to signify that the Clerks of such Unions have not replied to the inquiries forwarded to them. For the correctness of the entries so marked the Editors do not hold themselves responsible.

4. In those cases where the amounts of extras have been given, it may, as a rule, be inferred that both medical fees and vaccination charges have been included.

REGULATIONS

OF THE

ARMY & NAVY MEDICAL DEPARTMENTS,

AND

INDIAN MEDICAL SERVICE.

MEDICAL DEPARTMENT OF THE ARMY.

Office, 6, Whitehall-yard, London, S.W.

Director-General, Sir William Muir, K.C.B., M.D., Hon. Phys. to H.M. the Queen; Surg.-Gen. (Sanitary Branch), Dr. W. Rutherford, C.B.; Dep.-Surg.-Gen. (Statistical Branch), Sir A. D. Home, V.C.; Dep.-Surg.-Gen. (Medical Branch), W. Munro, C.B.; Surgeons Major, W. Snell, Dr. F. Collins, Dr. J. A. Marston, and Dr. G. W. McNalty; Senior Clerk, Theophilus H. Clarke, Esq.

QUALIFICATIONS OF CANDIDATES FOR COMMISSIONS IN THE ARMY MEDICAL SERVICE, WITH A SUMMARY OF THE RULES BY WHICH THE PAY, PROMOTION, AND RETIREMENT OF MEDICAL OFFICERS ARE REGULATED AND DETERMINED.

I.

1. Every Candidate desirous of presenting himself for admission to the Army Medical Service must not be under 21 nor over 28 years of age. He must produce a certificate from the District Registrar, in which the date of birth is stated; or, if this cannot be obtained, an affidavit from one of the parents, or other near relative who can attest the date of birth, will be accepted. He must also produce a certificate of moral character, from the parochial minister, if possible.
2. The Candidate must make a declaration that his parents are of unmixed European blood, and that he labours under no mental or constitutional disease, nor any imperfection or disability that would interfere with the most efficient discharge of the duties of a medical officer in any climate. His physical fitness will be determined by a Board of Medical Officers, who are required to certify that the candidate's vision is sufficiently good to enable him to perform any surgical operation without the aid of glasses. A moderate degree of myopia would not be considered a disqualification, provided it did not necessitate the use of glasses during the performance of operations, and that no organic disease of the eyes existed. The Board must also certify that he is free from organic or hereditary disease, and from constitutional weakness or other disability likely to unfit him for military service in any climate.
3. The Candidate must possess two diplomas or licences—one to practise Medicine and the other Surgery in Great Britain or Ireland, and must be registered under the Medical Act in force at the time of his appointment.
4. *Certificates of registration, character, and age must accompany the Declaration when filled up and returned.*
5. Candidates will be examined by the Examining Board in the following compulsory subjects, and the highest number of marks attainable will be distributed as follows:—

	Marks.
a. Anatomy and physiology	1000
b. Surgery	1000
c. Medicine, including therapeutics, the diseases of women and children	1000
d. Chemistry and pharmacy, and a practical knowledge of drugs	100

N.B.—The examination in Medicine, and Surgery, will be in part practical, and will include operations on the dead body, the application of Surgical Apparatus, and the examination of Medical and Surgical Patients at the bedside.

The eligibility of each Candidate for the Army Medical Service will be determined by the result of the examinations in these subjects only.

Examinations will also be held in the following voluntary subjects, for which the maximum number of marks will be—

	Marks.
French and German (150 each)	300
Natural Sciences	300

The knowledge of modern languages being considered of great importance, all intending competitors are urged to qualify in French and German.

The natural sciences will include comparative Anatomy, Zoology, Natural Philosophy, Physical Geography, and Botany, with special reference to *Materia Medica*.

The number of marks gained in both the voluntary subjects will be added to the total number of

marks obtained by those who shall have been found qualified for admission, and whose position on the list of successful competitors will thus be improved in proportion to their knowledge of modern languages and natural sciences.

6. After passing this examination, every Candidate will be required to attend one entire Course of Practical Instruction at the Army Medical School, on—(1.) Hygiene. (2.) Clinical and Military Medicine. (3.) Clinical and Military Surgery. (4.) Pathology of Diseases and Injuries incident to Military Service.

7. At its conclusion the Candidate will be required to pass an examination on the subjects taught in the School. If he give satisfactory evidence of being qualified for the practical duties of an Army Medical Officer, he will be eligible for a Commission as Surgeon.

8. During the period of his residence at the Army Medical School each Candidate will receive an allowance of 5s. per diem, with quarters; or 7s. per diem, without quarters, to cover all costs of maintenance; and he will be required to provide himself with uniform (viz., the Regulation undress uniform of a Surgeon, but without the sword).

9. All Candidates will be required to conform to such rules of discipline as the Senate may, from time to time, enact.

II.

The pay, promotion, and retirement of Medical Officers of the Army are regulated by the following rules:—

1. The daily rates of pay of Medical Officers of the Army are as follows:—

2. A Surgeon must pass such examination as the Secretary of State for War may require, before he can be promoted to the rank of Surgeon-Major.

3. A vacancy in the rank of Surgeon-Major, occasioned by death or promotion shall, unless it be expedient that it be otherwise filled, be given to the senior qualified Surgeon of the Department. If a vacancy arise from any other cause it shall be filled by a qualified Surgeon, recommended by the Commander-in-Chief and with the approval of the Secretary of State. In cases of distinguished service, however, a Surgeon, if qualified, may be promoted without reference to seniority.

4. All promotion from the rank of Surgeon-Major to that of Deputy Surgeon-General and from the rank of Deputy Surgeon-General to that of Surgeon-General shall be given by selection on ability and merit.

5. Service of Medical Officers upon the West Coast of Africa shall be voluntary, except for those who enter the Department especially for African Service.

6. Each year or portion of a year shall be allowed to reckon double towards retirement, but not towards increased pay, provided that the Officer shall serve at least 12 months on the West Coast of Africa.

7. For each year's service on the Coast, a Medical Officer shall be entitled to a year's leave at home, and for every additional period beyond a year he shall have an equivalent extension of leave.

8. Officers who may enter the Army Medical Department expressly for Service on the West Coast of Africa, and those who may volunteer for that Service from the General Department, after this date, shall receive double pay while actually serving on the Coast.

9. Officers who enter the Department expressly for Service on the West Coast of Africa shall pass the same examination as other Medical Officers, but they may be admitted at a later date. They will be required to complete three years' actual service on the Coast, after which they shall be eligible for general service. If it shall be certified by a Medical Board that any such officer is unfit for further duty on the West Coast of Africa, he may be employed elsewhere, notwithstanding that he may have served for less than three years on the Coast.

10. Good Service Pensions shall be awarded to the most meritorious Medical Officers of the Army, under such regulations as shall be from time to time determined. Six of the most meritorious Medical Officers of the Army shall be named Honorary Physicians, and six Honorary Surgeons to the Queen.

11. Medical Officers shall have a right to retire on half-pay after 20 years' service: Medical Officers of the rank of Surgeon-Major, or Surgeon, shall be placed on the Retired List at the age of 55, and all Surgeons-General and Deputy Surgeons-General at the age of 65 years.

12. A Medical Officer placed on half-pay by reduction of establishment, or on the report of a

Medical Board, in consequence of wounds or ill-health caused in and by discharge of his duties, or on account of age (under Rule 11), shall be entitled to half-pay at the following daily rates:—

		£	s.	d.
Surgeon-General	after 30 years' service	1	17	6
" "	" 25 "	1	13	6
" "	" 20 "	1	10	0
Deputy Surgeon-General	" 30 "	1	5	6
" "	" 25 "	1	2	6
" "	" 20 "	1	1	0
Surgeon-Major	" 25 "	1	0	0
" "	" 20 "	0	16	6
" "	" 15 "	0	13	6
Surgeon-Major	" 10 "	0	11	0
Surgeons	" 10 "	0	10	0
" "	" 5 "	0	8	0
" "	under 5 "	0	6	0

13. The rate of half-pay awarded to Officers retiring for their own convenience after twenty years' service on full-pay shall not exceed one-half of their full-pay at the time of retirement.

14. Every Medical Officer who shall retire after a service upon full-pay of 25 years shall be granted a rate of half-pay equal to seven-tenths of the daily pay he may have been in receipt of when thus retiring or proceeding on half-pay, provided he shall have served three years in his rank, or shall have served abroad for ten years in all ranks, or for five years with an army in the field. An Officer of 25 years' full-pay service, whose service does not fall within any of these conditions, shall be entitled to only seven-tenths of the daily pay he was in receipt of prior to his last promotion.

15. A Medical Officer placed on half-pay from any other cause shall be allowed only a temporary rate of half-pay (not exceeding the rates specified in Rule 12), for such period and at such rate as the Secretary of State for War shall decide, with reference to the services rendered to the public by such Officer.

16. Medical Officers of 20 years' full-pay service, placed temporarily on half-pay under Rule 15 on account of ill-health may, however, be allowed to retire on permanent half-pay at the rate fixed by Rule 12, if after one year on half-pay they shall be reported by a Medical Board to be permanently unfit for further service.

17. Medical Officers are entitled to quarters, fuel, and light, free of charge, or allowances in lieu thereof; also to an allowance for a servant when not provided with a soldier to act as such.

18. These allowances are determined by the relative rank of Medical Officers, which is as follows:—

Surgeon-General after 3 years' service, or with an army in the field, ranks as Major-General.	
Do. do. under 3 years' service	" " Brigadier-General.
Deputy Surgeon-General after 5 years' service as such	" " Colonel.
Do. do. under 5 do. do.	" " Lieutenant-Colonel.
Surgeon-Major of 20 years' service	" " Lieutenant-Colonel.
Do. under do. do.	" " Major.
Surgeon of 6 years' service	" " Captain.
Do. under do.	" " Lieutenant.

19. Forage will be granted to Medical Officers for such number of horses as are necessarily kept by them for duty.

N.B. The rates of pay of British Medical Officers serving in India are the same as those sanctioned for the Indian Medical Service.

ARMY MEDICAL SCHOOL AT NETLEY.

President of the Senate.—Sir William Muir, K.C.B., M.D., Director-General Army Medical Department.

Other Members of the Senate.—Sir Alexander Armstrong, K.C.B., M.D., Director-General of the Medical Department of the Navy; Surgeon-General Joseph Fayrer, C.S.I., Physician to the Council of India; the Professors of the Army Medical School; the Principal Medical Officer at Netley (*ex-officio*).

Professors.—Surgeon-General T. Longmore, C.B., Military Surgery; Inspector-General W. C. Maclean, M.D., C.B., Military Medicine; E. A. Parkes, Esq., M.D., F.R.S., and Surg.-Maj. F. S. B. F. de Chaumont, M.D., Military Hygiene; W. Aitken, Esq., M.D., F.R.S., Pathology.

Assistant Professors.—Surg.-Maj. J. H. Porter, Military Surgery; Surg.-Maj. W. M. Webb, Military Medicine; Staff Surg.-Maj. J. D. Macdonald, M.D., F.R.S., Naval Hygiene; Surg. F. E. Welch, Pathology.

Secretary.—Heinrich T. G. Borchert, Esq.

All gentlemen who have been successful in the competitive examinations, held twice a year (February and August) at Chelsea, for appointments in the medical service of the Army, attend subsequently at Netley a course of practical instruction in the duties they will have to perform in the Army. The course lasts four months, after which an examination is held to ascertain the progress made by each candidate. The lectures on Military Surgery include gunshot and other wounds; arrangements for the transport of wounded; duties of Army Surgeons in the field, during sieges, on transports, &c.; and other special subjects. Those on Military Medicine refer to the tropical and other diseases of the British possessions and colonies, and to the losses by disease in peace and war at home and abroad. The lectures on Hygiene comprise all duties relating to the examination of water, air, food, clothing, &c., of the soldier; his duties and exercise, and the circumstances affecting his health; the subjects of meteorology, statistics, and prevention of the principal diseases met with in the Army, on home or foreign service. The lectures on Pathology have reference principally to the scientific examination of tropical diseases, and of other complaints which the Army surgeon is especially called on to investigate. The candidates also attend the wards of the Hospital to study the diseases of invalids under the Professors of Medicine and Surgery, the system of recruiting, and the modes of keeping the Army medical returns and records. They are also called on to make post-mortem examinations, to operate on the dead body, and pass through courses of practical instruction in the laboratory on the modes of recognising the qualities and adulterations of food, and in the microscopic room on the modes of microscopic examination of morbid tissues and of adulterations of food, &c. During his service at Netley, each candidate receives an allowance of 5s. per diem, and 2s. per diem for lodging money, if quarters are not found him. He wears uniform, attends the medical staff mess, and is under the usual military discipline.

QUALIFICATIONS AND EXAMINATION OF CANDIDATES FOR COMMISSIONS IN THE MEDICAL SERVICE OF THE ROYAL NAVY.

1st March, 1874.

The Lords Commissioners of the Admiralty are pleased to direct that the following Regulations, relative to the examination of Candidates for the appointment of Surgeon in the Royal Navy, shall in future be adopted:—

1. Every Candidate desirous of presenting himself for admission to the Naval Medical Service must be not under 21 nor over 28 years of age. He must produce a Certificate from the District Registrar, in which the date of birth is stated; or, if this cannot be obtained, an affidavit from one of the parents or other near relative, who can attest the date of birth, will be accepted. He must also produce a Certificate of moral character, signed by a Clergyman or a Magistrate to whom he has been for some years personally known, or by the President or Senior Professor of the College at which he was educated.

2. He must be free from organic disease, and will be required to make a declaration that he labours under no mental or constitutional disease or weakness, nor any other imperfection or disability that can interfere with the most efficient discharge of the duties of a Medical Officer in any climate.

His physical fitness will be determined by a Board of Medical Officers, who are to certify that his vision comes up to the required standard, which will be ascertained by the use of Snellen's test types.

He must also attest his readiness to engage for general service, and to proceed on foreign service when required to do so.

3. He must be registered under the Medical Act in force at the time of his appointment, as licensed to practise Medicine and Surgery in Great Britain or Ireland.

4. Certificates of registration, character, and age, must accompany this Schedule when filled up and returned.

5. Candidates will be examined by the Examining Board in the following subjects:—

Anatomy and Physiology.

Surgery.

Medicine, including Therapeutics, the diseases of women and children, Chemistry and Pharmacy, and a practical knowledge of Drugs. (The examination in Medicine and Surgery will be in part practical, and will include operations on the dead body, the application of Surgical Apparatus, and the examination of Medical and Surgical patients at the bedside.)

The eligibility of each Candidate for the Naval Medical Service will be determined by the result of the examinations in these subjects only.

Candidates who desire it will be examined in Comparative Anatomy, Zoology, Natural Philosophy, Physical Geography, and Botany, with special reference to *Materia Medica*; also in French and German; and the number of marks gained in these subjects will be added to the total number of marks obtained in the obligatory part of the examination by Candidates who shall have been found qualified for admission, and whose position on the list of successful competitors will thus be improved in proportion to their knowledge of these branches of science.

6. After passing this examination, every Candidate will be required to attend one entire Course of Practical Instruction in the Medical School at Netley, on—

(1) Hygiene.

(2) Clinical and Naval and Military Medicine.

(3) Clinical and Naval and Military Surgery.

(4) Pathology of Diseases and Injuries incident to Naval and Military Service.

7. At its conclusion, the Candidate will be required to pass an examination on the subjects taught in the School.

If he give satisfactory evidence of being qualified for the practical duties of a Naval Medical Officer, he will be eligible for a commission as Surgeon.

8. During the period of his residence at the Netley Medical School each Candidate will receive an allowance of 5s. per diem with quarters, or 7s. per diem without quarters, to cover all costs of maintenance; and he will be required to provide himself with uniform—viz., the regulation undress uniform of a Surgeon, but without the sword.

9. All Candidates will be required while at Netley, to conform to such rules of discipline as the Senate may from time to time enact.

10. After completing three years' Full-Pay Service, Surgeons will be allowed to be examined for the rank of Staff Surgeon, but no Surgeon can be promoted to the rank of Staff Surgeon until he shall have served five years, two of which must have been in a ship actually employed at sea.

REGULATIONS SHOWING RANK, PAY, AND POSITION OF NAVAL MEDICAL OFFICERS.

1. Promotion to the rank of Fleet Surgeon is open to Officers for distinguished or special service, although 20 years on Full Pay may not have been completed; such Fleet Surgeons will have 16s. a day Half-Pay.

2. Fleet Surgeons rank with Commanders, according to date of Commission.

3. The whole time served on Full Pay as a Surgeon to be allowed to Staff Surgeons, to qualify for the rank of Fleet Surgeon, provided the examination for Staff Surgeon is passed before the Officer completes 10 years' service, otherwise only 10 years served as Surgeon will be allowed to count.

4. Fleet Surgeons are appointed to the Flag Ships of Commanders-in-Chief on Foreign Stations with an allowance of 5s. a-day in addition to their established pay.

5. The Hospital Allowances for Naval Medical Officers at Home and Abroad, in lieu of provisions for themselves and servants, and for fuel and light, are as follows :—

	At Home.	Abroad.
	£	£
Inspectors-General of Hospitals	85	130
Deputy Inspectors-General	67	112
Fleet Surgeons and Staff Surgeons, ...	53	112
Surgeons	39	108

In cases where Medical Officers draw provisions or fuel from public stores, they will be charged for the same at cost price.

6. The travelling allowances, extra pay, lodging money, and compensation for losses, are fixed for Naval Medical Officers according to their relative rank in the Service.

7. Medical Officers have cabins according to their relative rank in the Service.

8. The Full and Half Pay of Naval Medical Officers is in accordance with the following scale :—

INDIAN MEDICAL SERVICE.

REGULATIONS FOR THE EXAMINATION OF CANDIDATES FOR THE APPOINTMENT OF SURGEON IN HER MAJESTY'S INDIAN MEDICAL SERVICE.

1. All natural-born subjects of Her Majesty, between 22 and 28 years of age at the date of the examination, and of sound bodily health, may be candidates. They may be married or unmarried. They must possess a Diploma in Surgery, or a licence to practise it, as well as a Degree in Medicine, or a licence to practise it in Great Britain or Ireland.
2. They must subscribe and send in to the Military Secretary, India Office, Westminster, so to reach that address at least a fortnight before the date fixed for the Examination, a declaration according to the annexed form.
3. This declaration must be accompanied by the following documents:—
 - (a) Proof of age, either by extract from the register of the parish in which the Candidate was born, or by his own declaration, form of which can be obtained at the India Office, pursuant to the Act 5 and 6 Will. IV., c. 62; such extract and declaration respectively bearing the stamps required by law.
 - (b) A certificate of moral character from a magistrate, or a minister of the religious denomination to which the Candidate belongs, who has personally known him for at least two preceding years.
 - (c) A certificate of registration, in accordance with the Medical Act of 1858, of the degrees, diplomas, and licences possessed by the Candidate.
4. The physical fitness of Candidates will be determined previous to examination by a Board of Medical Officers, who are required to certify that the Candidate's vision is sufficiently good to enable him to perform any surgical operation without the aid of glasses. A moderate degree of Myopia would not be considered a disqualification, provided it did not necessitate the use of glasses during the performance of operations, and that no organic disease of the eyes existed. Every Candidate must also be free from organic disease of other organs, and from constitutional weakness, or other disability likely to unfit him for Military Service in India.
5. On producing the foregoing qualifications, the Candidate will be examined by the Examining Board in the following compulsory subjects, and the highest number of marks attainable will be distributed as follows:—(a.) Anatomy and Physiology, 1000 marks. (b.) Surgery, 1000 marks. (c.) Medicine, including Therapeutics, the Diseases of Women and Children, 1000 marks. (d.) Chemistry and Pharmacy, and a practical knowledge of Drugs, 100 marks. (The examination in medicine and surgery will be in part practical, and will include operations on the dead body, the application of surgical apparatus, and the examination of medical and surgical patients at the bedside).
6. The eligibility of each Candidate for the Indian Medical Service will be determined by the result of the examinations in these subjects only.
7. Candidates, who desire it, will be examined in French, German, and Hindustani, Comparative Anatomy, Zoology, Natural Philosophy, Physical Geography, and Botany with special reference to Materia Medica.
8. The number of marks gained in these subjects will be added to the total number of marks obtained in the obligatory part of the examination by Candidates who shall have been found qualified for admission, and whose position on the list of successful competitors will thus be improved in proportion to their knowledge of modern languages and natural sciences.
9. The maximum number of marks allotted to the voluntary subjects will be as follows:—French, German, and Hindustani (150 each), 450 marks; Natural Science, 300 marks.
10. The subjects for this part of the examination will be taken from the following books:—*"The Animal Kingdom,"* by W. S. Dallas, F.L.S. *"Outlines of the Structure and Functions of the Animal Kingdom,"* by Rymer Jones; or *"Cours Élémentaire d'Histoire Naturelle,"* par Milne Edwards. *"Lindley's 'School Botany,'* Lindley's *"Medical and Economic Botany,"* Henfrey's *"Elementary Course of Botany,"* *"Elements of Natural Philosophy,"* by Golding Bird and Crookes. *"Physical Geography,"* by Mrs. Somerville.

11. The Examiners in London will prepare a list in order of merit, with the marks affixed in the different subjects, to be transmitted to the Director-General and communicated to the Professors of the Army Medical School. If any Candidate is found to be deficient in any particular subject, this shall be stated, in order that he may receive special instruction on the point at Netley.

12. After passing their preliminary examination, Candidates will be required to attend one entire course of practical instruction at the Army Medical School, before being admitted to examination for a commission, on—(1) Hygiene. (2) Clinical and Military Medicine. (3) Clinical and Military Surgery. (4) Pathology of Diseases and Injuries incident to Military Service. These courses are to be of not less than four months' duration; but Candidates who have already gone through a course at Netley as Candidates for the Army or Naval Medical Service may, if thought desirable, be exempted from attending the School a second time.

13. During the period of his residence at the Army Medical School, each Candidate will receive an allowance of 5s. per diem, with quarters, or 7s. per diem without quarters, to cover all costs of maintenance; and he will be required to provide himself with uniform (viz., the regulation undress uniform of a Surgeon of the British Service, but without the sword).

14. All Candidates will be required to conform to such rules of discipline as the Senate may, from time to time, enact.

15. At the conclusion of the course, Candidates will be required to pass an examination on the subjects taught in the School. The examination will be conducted by the Professors of the School.

The Director-General, or any medical officer deputed by him, may be present and take part in the examination. If the Candidate give satisfactory evidence of being qualified for the practical duties of an Army Medical Officer, he will be eligible for a commission as Surgeon.

16. The position of the Candidates on the list of Surgeons will be determined by the combined results of the preliminary and of the final examinations, and, so far as the requirements of the service will permit, they will have the choice of Presidency in India, according to their position in that list.

India Office, May, 1875.

N.B. The examinations for admission to the Indian Medical Service will usually take place twice a year—viz., in February and in August.

LIFE PROSPECTUS.

In a contract of the nature of Life Assurance, security should be the first consideration, and it may be confidently asserted that the Policy-holders in the ALLIANCE enjoy the highest degree of security, for besides an ample Accumulated Life Reserve Fund, now exceeding £940,000, there is the additional guarantee of a Subscribed Capital of £5,000,000 (of which £550,000 is paid up), coupled with the responsibility of a numerous body of Proprietors.

At the last Life Valuation of the Company (close of 1873), the Directors reserved for future profit, and for expenses of management and other contingencies, the entire *loading* on the Premiums, and inasmuch as the difference between the rate of interest (3½ per cent.) on which the division of Profits was based, and the rate of interest (4½ per cent.) which the Company makes on its Investments, is nearly sufficient to cover the expenses of management, including Agency Commission, the *loading* referred to may be regarded as a source of considerable future profit. The amount thus reserved represents 21 per cent. of the future Premiums payable to the Office under its current contracts of Assurance.

Participating Policy-holders receive 80 per cent. of the declared divisible Profits derived from the non-participating as well as from the participating Policies.

The terms and conditions on which Policies are granted will be found favourable to the Assured.

WHOLE WORLD POLICIES, subject to certain conditions, are issued.

ENDOWMENT ASSURANCES FOR ADVANCED AGE.—Policies are issued under which the sum assured is payable at a given age or at death, should the latter event happen before the specified age is attained.

UNDER THE MARRIED WOMEN'S PROPERTY ACT, 1870, A MARRIED WOMAN may effect an Assurance on her own life or on the life of her husband for her *separate use*. A HUSBAND may, under the same Act, assure his life for the benefit of his wife (for her separate use) and of his children.

INDIA.—Lives resident in India are accepted at an addition, in the case of Civilians of £1 10s. 0d. per cent. to the Home rates, and at an addition of £2 per cent. in the case of Military men.

LOANS are granted on the Company's Policies to nearly the full extent of the surrender value, after the payment of the third Annual Premium.

LOANS are also granted on the security of Life Interests in Property, coupled with Life Assurance; on Town and County Rates; on Rent Charges; and on other eligible securities.

FIRE INSURANCES are granted on the usual terms and conditions.

Prospectuses, Proposal Forms, and Statements of Accounts may be had on application to—

ROBERT LEWIS, *Secretary*.

ATLAS ASSURANCE COMPANY, FIRE AND LIFE, 92, CHEAPSIDE, LONDON.

Medical Officer—William Coulson, Esq., F.S.A.

Bankers—Messrs. Prescott, Grote, Cave and Cave.

This Office has been established more than 66 years, and its present magnitude and prosperity prove the soundness of the principles on which it has been conducted.

LIFE DEPARTMENT.

The Accumulated Premiums are over **£1,550,000**. The Annual Income exceeds **£160,000**.

The sum of **£5,866,665** has been paid in claims under Life Policies.

Large Bonuses have been declared and paid as additions to the amounts assured.

Premiums on Policies have been greatly reduced where parties have so applied the Bonuses on their Policies.

Persons assuring in Great Britain have the option of **Participating Rates of Premium**, or of **Non-Participating Rates**.

Combined provision may be made for old age and early death, so that a person may secure a sum to be paid to himself at an age agreed upon, or to his Executors if he should die before that age.

Residence in countries beyond the limits of Europe is allowed on favourable terms; in most temperate climates without extra Premium, beyond a moderate charge for the voyage only.

Whole World Assurances are granted.

Notices of the Assignment of Life Policies are received and acknowledged.

Advances are made on Policies to the extent of their value.

Persons desiring to surrender their Assurances may receive their value in money, or, in lieu thereof, may obtain a new Policy **without further payment of Premium**.

The Directors are ready to receive proposals for Assurances, or any contingency involving payment of a sum at death.

FIRE DEPARTMENT.

This Company undertakes the Assurance of almost every species of Property in the United Kingdom, at Rates of Premium and upon principles which will be found quite as advantageous to the interests of the Assured as those offered by any other Office. The Directors can confidently refer to the well-known character of the Company for liberality and promptitude in the discharge of claims made upon it during the many years it has been established.

No charge made for Policy Stamps.

Renewals should be paid within fifteen days after the respective Quarter-days when they become due.

Losses occasioned by **Lightning** will be paid.

The **Policies** of the **Company** extend to cover **Losses** occasioned by the **Explosion of Gas**.

The **Company** is ready to receive applications for Agencies in those Towns and Districts in which it is not at present represented. Application to be made to the **Secretary**.

All Fire Assurances are now exempt from the payment of **Government Duty**.

Tables of Rates, Forms of Proposal, and any information needful to effect Life or Fire Assurances may be obtained on application to the Office, No. 92, Cheapside, London, or to any of the Company's Agents.

SAFETY.—After returning to the Members **£122,485** in Cash, the ACCUMULATED FUND amounts to **£574,230**, which is more than Six Years' Premium Income, and nearly 40 per cent. of all the Premiums received from the commencement of the Company.

MUTUALITY.—As the whole of the profits are divided amongst the Members, Assurances in this Office are effected at **COST PRICE**.

PROFITS are declared every third year. The next division will be declared in 1876.

Prospectuses, copies of last report, balance-sheet, and all needful information may be obtained on application to any of the Agents of the Company, or to—

ALFRED LENCH SAUL, Secretary.

LOANS ON CHURCHES, CHAPELS, SCHOOL BUILDINGS, &c., advanced at Four and a Half per cent. interest when accompanied with Life Assurance to the amount advanced.

Loans advanced on personal security in connexion with Life Assurance.

Founded A.D. 1805.

(THE OLDEST SCOTTISH INSURANCE INSTITUTION).

THE

CALEDONIAN INSURANCE COMPANY.

Incorporated by Royal Charter and Special Act of Parliament.

Life Department.—Although the annual premiums charged by this Company are strictly moderate, the Bonus additions at the 5th Division of Profits recently made, were at the high rate of £1 7s. per cent per annum on the sum assured.

By insuring now the advantage will be obtained of ranking for THREE FULL YEARS' Bonus at the next Division of Profits on 14th May, 1878.

The Funds in this Department are kept strictly separate from those of the Fire Department, and are invested for the sole benefit of the Life Policy holders. They are on an unusually ample scale, a large reserve being retained beyond the sum required to meet all Liabilities, according to a net premium valuation by the Carlisle Table at 3 per cent interest.

Fire Department.—The Reserves in this Department are on such a scale as to afford the VERY HIGHEST ORDER OF SECURITY to the insured. Nearly every description of property within the United Kingdom is insured by the Company.

Total Funds £2,228,347 0 0

Total Annual Income 266,603 0 0

No Agents employed, and no commission paid.

Reduced Premiums.—Assurances may be effected upon payment of four-fifths of the rates chargeable according to the Society's Table, subject to *certain conditions* fully set forth and explained in the Prospectus.

Claims.—The total amount of Claims paid upon death from the commencement of the Society to 1st June, 1875, was £1,265,881.

Bonus.—The whole available Bonus is the sole property of Life Assurers; no part whatever is taken from it to be shared amongst Proprietors. At the end of every fifth Year profits are equitably apportioned amongst existing Life Assurances. By means of Bonus 585 of the earlier Life Assurances have been relieved altogether from the payment of Annual Premiums, and additions in almost every case have been made to the sums Assured: £280,000 was divided amongst Life Assurances at the last declaration of profits. The next Bonus will be due 1st June, 1876, and Assurances made previously to such date will share therein.

Assurers have the privilege at the time of making an Assurance of selecting the mode in which the Bonus, whenever due, shall be applied, *viz.*, in an immediate Cash payment, or to the reduction of the Annual Premium, or to the increase of the Capital sum assured.

ASSURANCES may be effected on LIVES, SURVIVORSHIPS, &c. &c., as stated in the Society's Prospectus, to any amount not exceeding £7500.

This Society is strictly confined to the Clergy of the Church of England and of the Episcopal Church of Scotland, their Wives and Families, and the near relations of themselves and Wives.

Prospectuses, Bonus Accounts, Forms of Proposal, &c., may be had at the Office, on personal application, or by letter.

REPORT OF THE DIRECTORS

Presented at the 51st Annual General Meeting, held at the Society's Office, Friday, November 26th, 1875.

In reporting the transactions of the year ending June 30th, 1875, the Directors are again enabled to submit a most satisfactory statement.

The new business consisted of **647** Policies, assuring **£341,475**, and yielding **£11,756 : 1 : 7** in Annual Premiums. To these increased results, as to those of last year, the City Branch, established at Mansion House Buildings in 1873, materially contributed; and the Directors are happy in being able now to speak of the successful progress of that experiment.

Evidence equally satisfactory in regard to the old business is afforded by the annexed Schedules.* The mortality continued favourable, the death claims, amounting to £155,085 : 3 : 0, though somewhat larger than in the previous year, having been no more than proportionate to the larger amount at risk; the Revenue, both from interest and premiums, was considerably increased, and reached a total of **£262,001 : 15 : 5**; and the Assurance Fund, augmented by the large surplus income of £70,711 : 12 : 7, was raised to **£2,015,889 : 16 : 10**. To this it may be added that the rate of interest on investments was well maintained, and the ratio of expense kept within its usual moderate limits.

There remains now but the current year to complete a Quinquennium thus far marked, in an especial degree, by prosperity and progress; and to the actuarial investigation which will follow its close in June next, preparatory to the declaration of Bonus in January, 1877, the Directors look forward with entire confidence. Satisfied of the ability of the Society to exhibit a handsome surplus, and mindful that all participating Policies, new as well as old, in existence on the 30th June, will benefit by the distribution, the Directors invite all interested in the Society to avail themselves, during what remains of the period, of so favourable an opportunity for augmenting the number of the assured.

BONUS.

The Profits are divided quinquennially, and Policies participate in proportion to the number and amount of Premiums paid on them during the Quinquennium.

The Reversionary Bonus allotted to the Assured at the Division in January, 1872 (amounting to £323,871), averaged 49 per Cent., and the Cash Bonus 29 per Cent., on the Premiums paid in the 5 years.

* The Schedules above referred to, Forms of Proposal, and every information, can be obtained at either of the Society's Offices, or of any of its Agents.

GEORGE CUTCLIFFE, *Actuary and Secretary.*

N.B.—A Fee of One Guinea is paid to the Medical Attendants of all Persons proposing to Assure.

Whole-World Policies without the payment of any Extra Premium are issued to all persons who, at the time of assuring, have no intention or prospect of proceeding beyond the limits of Europe.

Policies issued at the ordinary with Profit Rate of Premium, by a new method of applying the Bonus, may be MADE PAYABLE DURING THE LIFETIME OF THE ASSURED.

SECURITY COMBINED WITH OTHER ADVANTAGES.

The **Sum Assured** now exceeds £5,074,000.

The **Annual Income** is upwards of £203,000.

The **Funds Invested** amount to £1,370,000.

The **Bonuses** added to Policies amount to £861,000.

The **Sums Paid** to the Representatives of deceased Members exceed £2,617,000.

The **Profits** are divided *quinquennially*—**Five-Sixths** being allotted to the Assured, and the remaining One-sixth added to the Guarantee Fund, and permanently reserved as a Security to the Assured. The next Division will be on 25th March, 1880.

Annual Cash Bonuses are allotted to Policies that become Claims any time after three years' Premiums have been paid.

The **Rates of Premium** will be found very advantageous.

The **Policy Stamp and Medical Fees** are paid by the Company.

The **Usual Commission** allowed to Solicitors and others introducing Assurances at the Head and Branch Offices.

LEADING FEATURES.

Absolute Security.—The Accumulated Funds amount to £1,350,000, and they are securely invested. The periodical Investigations are conducted on the most approved principles.

Large and Increasing Bonuses.—The Company's Special Bonus System secures an increasing share of the Profits as Policies advance in age. For some years past the Average Amount of Bonus paid on claims has been upwards of THIRTY PER CENT.

Moderate Premiums.—While the Conditions of Assurance in this Office are of the most liberal kind, the Rates of Premium are specially moderate.

Non-Forfeiture System.—The Special Non-Forfeiture System of this Company effectually provides against loss from the discontinuance of Premiums.

Business rapidly Increasing.—Within the last five years the New Business of the Company has increased by more than Fifty per Cent. The amount of Assurances effected during the year 1874-75 was £632,482.

Life Business only is transacted by the Company.

Prospectuses, copies of the Annual Report and Accounts, &c., may be had on application.

Policies are indisputable, except on the ground of fraud.

Lapsed policies are revived within the period of three months upon payment of the overdue premium and a small fine, without evidence of health.

Whole world licences will be granted in most cases without payment of extra premium.

Nine-tenths of the Profits are divided among the assured every Five Years.

At an Extraordinary General Meeting held on June 9, 1875, the sum of £344,379 was set aside as the value of the Society's liabilities under its Assurance and Annuity Contracts, and £173,180 was ordered to be divided as Bonus; leaving a balance of undivided profit of £20,033.

Nine-tenths of the sum divided was allotted among holders of Policies for 2,500,000.

At the recent Bonus investigation the reserves against all liabilities were determined upon the strictest and most cautious principles known to Actuaries.

The "Seventeen Offices' Experience" Table of Mortality was employed throughout the valuation.

The liabilities were discounted at 3 per cent. only, being the rate originally assumed in determining the premiums.

The value of the "Net" premium only (i.e. the premium required exactly to meet the anticipated risk, on the assumption that there were no expenses and no profits) was brought into account against the corresponding liability under a policy. All excess above the net premium in the "gross" or office premium actually receivable in the future was rigidly reserved as a provision for future expenses, profits and contingencies.

The value of the protection thus afforded to Policy-holders is clearly explained by the Directors' Report.

The Bonus declared, after thus providing the highest known order of security, was unusually large.

The Assured receive nine-tenths of the Profits.

LIFE ASSOCIATION OF SCOTLAND.

Founded 1838.

FOR LIFE ASSURANCE AND ANNUITIES.

LONDON—5, LOMBARD STREET, and 48, PALL MALL.

The Bonus Systems are worthy of Special Attention. The Profits are allocated under two separate Classes, and confer unusual and superior Benefits.

In **Class A** the Cash Bonuses are allocated *every year* to Policy-holders of five years' standing who have paid six years' premiums, and are applied in part payment of the next due Premiums. The bonuses thus virtually become a Life Annuity to the Policy-holder. The Original Outlay required for an ordinary policy by Whole Life premiums has thereby been reduced from 25 to 37½ per cent. (5s. to 7s. 6d. per £1) less than the usual amount.

In **Class B** the Bonuses are declared every Five Years, and are in the form of Contingent Additions to the Sums Assured. Two divisions of profit have been made, namely at 5th December, 1863, and 1870; and at both there was attached to each Participating Policy a **BONUS ADDITION**, at the rate of 6½ per cent. for every year's premium paid during the preceding five years—such addition to be payable at death along with the sum assured, provided the life assured attain the average expectation of life of persons of his age when he entered.

Policies Free from all restriction on place of **Residence**, and giving the utmost protection against accidental forfeiture, with other privileges.

The Non-Forfeitable Premium System, enabling the policy-holder to discontinue his premium payments without loss.

Small Outlay.—Two-thirds only of the tabular premiums for the first ten years need be paid on policies of £300 or upwards. A policy of £1500 may thus be secured for the outlay commonly required for £1000.

During Year ending 5th April, 1875, there were issued **1794** New Policies, assuring **£909,922**. The Revenue of the Year was **£375,746**, and the Accumulated Fund **£1,801,829**.

HIGH ORDER OF SECURITY OFFERED.

1.—Valuation reserves based upon the strictest known principles.

The table of mortality used is that known as the "17 Offices experience," which is founded on and represents the mortality of *assured* lives.

The rate of interest assumed has been **3** per cent. only.

The whole of the "loading" on the premiums has been reserved for future expenses and profits.

The safety of these principles of valuation will be seen on reference to Messrs. Malcolm and Hamilton's report to the Board of Trade, dated 10th July, 1874.

2.—An accumulated Fund exceeding **£700,000.**

3.—A subscribed Capital of **ONE MILLION**, guaranteed by members solely of the legal profession.

Copies of the accounts and of the full statements rendered to the Board of Trade, and all other information, may be had on application to—

MODERATE RATES OF PREMIUM.

Liberal treatment as to Travel and Foreign Residence.

Absolute Assurances by which for each premium paid a given amount is secured independent of further premium payment.

Policy holders are protected from all liability by the deed of settlement, and by a clause in each policy; they have therefore the advantage of a large premium fund with the absence of all individual risk.

Second-class lives are allowed to pay ordinary rates with the extra premium charged as a debt on the policy reducible annually.

Claims not exceeding £200 sterling are paid as soon as recognised by the Board, and assurances of larger amount within three months after proof of death.

THE SCOTTISH WIDOWS' FUND

(MUTUAL)

LIFE ASSURANCE SOCIETY.

Sums Assured and Bonuses exceed	...	£20,000,000
Accumulated Fund		6,200,000
Annual Revenue		780,000

PROFIT.

At the last Investigation on 31st December, 1873, after making ample Reserve, and leaving intact every source of Profit for the future, it was found that

THE CASH SURPLUS EXCEEDED A MILLION AND A QUARTER.

That Surplus (with the exception of £189,556 remaining of the Guarantee Fund of the previous Division) was entirely derived from the Profit of the Septennial Period, and is

THE LARGEST EVER EARNED BY THE SOCIETY.

It enabled the Directors to declare a Bonus Addition to the Sums Assured at £1 12s. per cent. per annum, not only on the original amount of the Policies, but on past Vested Bonuses as well. Calculated on the original sums only, a common practice with Offices,

THE NEW BONUSES GIVEN RANGE FROM

£1 13s. per cent. per annum on New Policies to £4 0s. 8d. per cent.
per annum on the Oldest.

The FULL PROSPECTUS of the SOCIETY (which may be obtained on application) contains Tables showing the whole Bonuses declared on Policies of all ages, and every information required for the closest scrutiny of the Society's position and prospects, with exact details of the method by which Surplus has been determined, and by which provision has been made for

SECURITY AND PROFIT IN TIME TO COME.

THE UNION ASSURANCE SOCIETY has been established upwards of 160 years, during which period it has ever maintained its present high position amongst similar institutions. The total Funds of the Society amount to upwards of **One Million Four Hundred Thousand Pounds**, an amount of accumulated resources which enables the Society to offer to intending Assurers the most perfect security.

FIRE DEPARTMENT.

The Directors are ready to receive proposals for Insuring Property generally at equitable rates against the risk of Fire.

LIFE DEPARTMENT.

Four-fifths or Eighty per cent. of the office Profits are appropriated to the benefit of the assured every five years, the next division taking place in January, 1878. During the last thirty years the **Bonus** has averaged upwards of **One Pound Ten Shillings per cent. per annum** on the sum assured, the effect of which, as applied to particular Policies, will appear from the following Table :—

Age at Entrance.	Sum Assured.	Amount added to Policy after				
		10 Years.	15 Years.	20 Years.	25 Years.	30 Years.
	£	£	£	£	£	£
20	4000	500	900	1240	1540	1840
30	2000	250	450	620	770	920
40	3000	375	675	930	1155	1380
50	1000	125	225	310	385	460

The amount of the Bonus can either be appropriated to increase the sum assured, to reduce the annual premium, or its present value can be taken in cash.

Officers in the Royal Navy, or in H.M. Marine Forces, can insure by uniform annual premiums, not subject to increase for residence in any part of the world.

The free limits within which the insured can reside, without extra payment or forfeiture of their Policies, have recently been very considerably extended.

Prospectuses, Forms of Proposal, and copies of the last Annual Report and Accounts of the Society can be obtained on application.

Gentlemen are admitted who desire to qualify themselves for Matrons, Superintendents, or Hospital Sisters.

2. The Probationers will be under the authority of the Matron of the Hospital, and will serve for one year as Assistant Nurses in the Wards.

3. Free Probationers will be supplied with separate lodging in the Hospital, with board and washing, and with a certain quantity of outer clothing, and they will be paid a sum of £10 during the year. A limited number are charged for board.

4. At the close of a year their training will be complete, and they will be required to enter into service as Hospital Nurses in such situations as may be offered to them.

Candidates are received on the usual quarter days, if there are vacancies. Applications should be made personally to Mrs. WARDROPER, St. Thomas's Hospital, London, S.E., between 10 and 12 A.M. on Tuesday or Friday. The Regulations may be obtained by writing to the Secretary of the Nightingale Fund, 91, Gloucester Terrace, Hyde Park, W.

THE ROYAL MEDICAL BENEVOLENT COLLEGE

Was founded in order to provide an **ASYLUM** and **PENSIONERS** for duly qualified Medical Men, and the Widows of such, in reduced circumstances; and a **SCHOOL** for the sons of duly qualified Medical Men.

THE **ASYLUM** contains twenty-four residents, who are called **Pensioners**, each of whom is provided with three furnished rooms, and receives a pension of £21 a year, and an annual allowance of 8½ tons coals. In addition to the resident **Pensioners**, there are twenty-six **Pensioners** who have **Annuities** of £21, without residences.

PENSIONERS must be legally qualified Medical Men, who have been in independent practice in England or Wales for five years from the date of their diploma, licence, or degree, or the Widows of such. They must not be less than sixty years of age, at the time of their application for admission as **Candidates**, and their yearly income must not exceed £60. They will be elected in the first instance to **Annuities** only, and will succeed to residences in turn, as vacancies arise among the residents, provided that their circumstances are such as to render them fitting inmates of the **Asylum**.

THE **SCHOOL** contains two hundred resident pupils, the sons of Medical Men, fifty of whom, being the **Foundation Scholars**, are educated, boarded, clothed, and maintained, at the expense of the Institution; while the remainder are charged £48 a year each, if under 14 years of age, and £51 a year, if 14 years of age and upwards, for an education of the highest class, board, washing, use of books, &c. There are also **Day Scholars**, who are not necessarily the sons of Medical Men.

FOUNDATION SCHOLARS must be elected from among the necessitous orphans and sons of such Medical Men as would be professionally qualified for **Pensionerships**. They must be fully eight years old when proposed as candidates.

There is a **CHAPEL** for Divine Worship according to the ritual of the Church of England.

Donors of **TEN GUINEAS** are **Life Governors** of the College; **Subscribers** of **ONE GUINEA** annually are **Governors** during the continuance of their **Subscriptions**. All **Subscriptions** are due in advance on the 1st of January in each year.

The **Governors** vote at all elections by ballot, either personally or by proxy, and have votes in the proportion of one for each **GUINEA** subscribed annually, for every **TEN GUINEAS** given, for every **TWENTY GUINEAS** collected.

Any information with regard to the details of the Institution will gladly be communicated to parties addressing inquiries to the **SECRETARY**, at the Office of the College, 37, SOHO SQUARE, where **Subscriptions** and **Donations** will be thankfully received. **Subscriptions** will also be received by the **TREASURER**, the **MEMBERS OF THE COUNCIL**, the **HONORARY LOCAL SECRETARIES**, and the **BANKERS**, Messrs. Goslings and Sharpe, 19, Fleet-street. Post Office Orders should be drawn on the Chief Office, "London, E.C.," and should be made payable to "Robert Freeman."

The Office is open daily from Ten to Five, except on Saturdays, when it closes at Two o'Clock.

ASHWOOD HOUSE,

KINGSWINFORD, STAFFORDSHIRE,

A Private Asylum for Ladies and Gentlemen.

GEORGE FOWLER BODINGTON, M.D., M.R.C.P., F.R.C.S. (EXAM.)

Proprietor and Medical Superintendent.

Ashwood House is a large mansion in the county of Stafford, close upon the borders of Worcestershire. It is very substantially built, and is situated upon an elevated spot commanding extensive views. The rooms are large, lofty, and cheerful, and the house, both inside and outside, has entirely the air and character of a gentleman's private residence. The soil is sand and gravel, has excellent natural drainage, and is very dry. The gardens and grounds, about forty acres in extent, are well planted with shrubs and ornamental timber, and are extremely picturesque. The climate is genial, and the locality notoriously healthy. The country around is secluded and quiet, and affords a great variety of walks and drives amidst the most charming scenery.

The patients associate with the Proprietor's family, and have every possible freedom allowed them consistent with safety.

Carriage exercise is provided; there is a Billiard Room, and a large Croquet Lawn; Books, Newspapers, and Magazines are supplied, and the patients are entertained with music and a variety of other means of recreation and amusement.

Divine service is held in the House every Sunday afternoon.

This establishment has lately been removed from Driffield House, Sutton Coldfield, Warwickshire, where it was carried on for thirty-six years by Dr. Bodington and his father. The following extract is from the Report of the Lunacy Commissioners [July, 1872]:—

"Driffield House, Sutton Coldfield, near Birmingham, is now very judiciously managed, and uniformly satisfactory account has been given lately of the accommodation and the treatment of its patients of both sexes . . . all of them receiving much attention and kindness from Dr. Bodington's family."—*26th Annual Report of the Commissioners in Lunacy*, p. 44.

Assistant-Surgeon—Montgomery A. Ward, M.B., M.Ch., F.R.C.S.I., Demonstrator of Anatomy, Ledwich School of Medicine, Ex-Medical Scholar, T.C.D.

The central position of this Hospital renders it particularly convenient to gentlemen attending Lectures at the University, College of Surgeons, or Ledwich School. The arrangements for Clinical Teaching have been made as complete as possible, and are such as not to interfere with attendance at the Medical Schools. There are Fever Wards apart from the Hospital, and Two Wards for Infants and Children. Special hours are devoted to Clinical Instruction in the Diseases peculiar to Women, the Diseases of the Eye, and Cutaneous Diseases, and Students are individually instructed in the use of the Stethoscope, Ophthalmoscope, Laryngoscope, and Microscope. Two Resident Pupils are selected half-yearly. Prize Examinations are held at the termination of the Session.

Further particulars can be obtained from Mr. RICHARDSON, 22, Ely Place, or any other Member of the Medical Staff.

DR. F. K. DICKSON, F.R.C.P. Edin.

Erected in 1861 by HIS GRACE THE DUKE OF DEVONSHIRE.

This Institution has been established for the reception of Patients of **BOTH SEXES** of the Higher and Middle Classes, for whom it is admirably adapted by its position and appointments.

It is erected on an eminence surrounded with scenery of the most varied character, and the views from the House and Terraces extend over many miles of picturesque country.

The House is furnished throughout on the most liberal scale, and fitted up and arranged to resemble as much as possible that of an ordinary dwelling-house with Bath-rooms and every necessary convenience.

Every exertion is made to promote health and comfort both by moderate bodily employment and by variety in amusements, such as reading, music, drawing, excursions, fishing, billiards, &c. &c. &c.

A Library is provided, containing works of an instructive and amusing character, suited to the condition of the Patients; also Periodicals, Magazines, and Newspapers.

Due provision is made for the spiritual welfare and consolation of the Patients, and Divine Service is held every Sunday at 4 p.m. in the Chapel attached to the Institution.

The Pleasure Grounds, which are very spacious, have been laid out in the most tasteful manner, especially for the recreation of the Patients; and contain a Conservatory, Lawns for Croquet and other out-door games, also a Billiard-room and Workshop for the in-door occupation of the Patients.

The House is heated throughout by means of hot-water apparatus, and is well and thoroughly ventilated.

Buxton is situated on the Mountain Limestone Formation, at an elevation of 1000 feet above the level of the sea, and is accessible by railway from Manchester and Liverpool by Stockport, or by the Great Northern and Midland Railways *via* Ambergate and Derby. It is also connected by Telegraph with all parts of the kingdom.

Particulars of Terms and Forms of Admission can be obtained on application to the Resident Physicians.

CORBAR HILL HOUSE, BUXTON, DERBYSHIRE

RESIDENT PROPRIETOR . . . MR. THOMAS DICKSON.

PHYSICIAN DR. F. KENNEDY DICKSON.

An Establishment for the reception of a select number of persons suffering from the effects of **ALCOHOLIC ABUSE**, and from other **MALADIES OF A LIKE NATURE** requiring **MEDICAL OR HYGIENIC TREATMENT**.

CORBAR HILL HOUSE stands on the southern slope of Corbar Hill, one of the most beautiful eminences in the neighbourhood of Buxton, and from its elevated position, its invigorating mountain air, and the dryness and porous nature of its soil, combines every natural essential for the maintenance of health and its recovery when impaired.

It is a private mansion, with large and elegantly-furnished rooms, heated throughout with hot water, and containing every modern improvement for comfort and health. The situation is peculiarly favourable, being completely sheltered from the north and east winds. The grounds are extensive, richly wooded, and laid out in a series of walks commanding splendid views over many miles of picturesque scenery.

Every provision is made for the comfort and amusement of the inmates. A spacious and well-appointed billiard-room; ample means for the pursuit of musical and other artistic tastes; extensive lawns for croquet, archery, and other out-door games; large fruit and flower gardens, affording every facility to those interested in horticulture to follow their favourite tastes; as well as an extensive range of conservatories, connected by a verandah, the whole forming a covered promenade of nearly 200 feet, with a southern aspect, for exercise in wet weather. Carriage exercise is provided for those who may require it, and there is ample stabling and coach-house accommodation for those who may prefer using their own horses and conveyances.

From the large amount of success which has heretofore been met with in the treatment of the particular classes of cases for the reception of which Corbar Hill House is especially designed, the Proprietor feels every confidence in now offering to the afflicted the comforts and advantages of a well-regulated, completely equipped, and first-class House, in conjunction with the most recent and improved modes of Medical and Hygienic Treatment.

For terms and other particulars address the Proprietor.

DINSDALE PARK, NEAR DARLINGTON.

As a residence for Mental Invalids, Dinsdale Park Retreat was successfully carried on for fourteen years by Dr. MACKINTOSH, and in 1869 Dr. EASTWOOD succeeded him in the charge of the establishment. The house has always maintained a high character, and is eminently well adapted for patients of the higher and middle classes. Its southern aspect and elevated situation on the Durham side of the River Tees, overlooking a large portion of the North Riding of Yorkshire and the varied scenery of the Cleveland Hills, render it at once a healthy and cheerful residence. Attached to the mansion are more than one hundred acres of land, of which a considerable portion is laid out in gardens and pleasure-grounds. The neighbourhood has become proverbial for its beauty and salubrity. The house is well arranged for both ladies and gentlemen, and is peculiarly adapted to the requirements of invalids of the highest classes, having suites of apartments for special use if desired.

Carriage exercise, Archery, Bowls, Croquet, Billiards, Bagatelle, Daily and other Newspapers, Periodicals, Books, and Musical Instruments are provided, whilst amusement and occupation are obtained on the farm and in the gardens.

Dr. EASTWOOD has had great experience in the treatment of mental disorders and in the care of the insane. Dr. and Mrs. EASTWOOD endeavour to promote, in every possible way, the early recovery of the patients, and to give them a comfortable and cheerful home.

For forms of admission and for further particulars, application may be made to Dr. EASTWOOD, Dinsdale Park, Darlington.

*The Parliamentary Gazetteer of 1843 has the following Description by
SIR GEORGE HEAD :—*

"The house is a spacious, well-built mansion, lately erected by the EARL OF DURHAM, embellished with lawn and pleasure-grounds, situated on an eminence commanding a magnificent view over the broad vale of Cleveland as a foreground, and in the distance bounded by the Yorkshire mountains. Immediately below, the River Tees, almost equal in beauty to the Thames at Richmond, forms an ample and graceful bend; and on its hither bank plantations afford a retired and shaded walk nearly two miles in extent. The walks through the fields and woods in the neighbourhood of Dinsdale are as beautiful as can be imagined, combining a splendid distant prospect with a home picture of rural retirement."

PRIVATE HOUSE OF RETIREMENT,

(FOR THE RECEPTION OF INSANE PERSONS OF BOTH SEXES,)

DUNNINGTON HOUSE, NEAR YORK.

This Establishment is in a retired and healthy situation, about four miles from York. Its domestic comforts, gardens, and pleasure-grounds attached, render it equal to any other Establishment in the kingdom. The Patients are under the immediate superintendence of Mr. and Mrs. HORNBY, and partake of all the enjoyments of a domestic life. The amusements are varied and numerous. The Billiard Table and Bowling Green afford ample exercise for those whose unhappy situation renders walking or riding exercise from home improper. The house is attended by an eminent Surgeon, *but the friends of any Patient may make their own choice of a Medical Adviser when occasion requires.* Patients attended from their own residences, travelling expenses only charged. The terms will vary according to the accommodation required.

TASTELESS PILLS.—COX'S PATENT.

Dated and sealed April 13, 1854.—Surgeons and Chemists supplied with an excellent Aperient Pill (the formula for which will be forwarded), covered with a thin non-metallic film, rendering each pill perfectly tasteless, at 1s. 6d. a gross. Postage free. They present an elegant pearl-like appearance, and may be kept in the mouth several minutes without taste, yet readily dissolving even in cold water, in an hour. Any formula dispensed and covered, and samples, with a list of pills from 200 different forms, which are kept in stock, will be forwarded free on application.

Twenty years' success, as proved by unsolicited testimonials from medical men in almost every town and village in the kingdom, has produced imitations likely to bring an useful invention into disrepute.

ARTHUR H. COX AND CO., TASTELESS PILL MANUFACTURERS, BRIGHTON.

THE ADULTERATION ACT AND WHAT IT REVEALS.

It has been proved by the Public Analyst, in a prosecution under the above Act at Greenock, that the compound so largely used by the public, and known under the name of Citrate of Magnesia, is almost wholly composed of washing soda and tartaric acid; and the magistrates refused to convict vendors because it is the compound known and sold under the above name.

MAGNESILYNE,

the new preparation with a distinctive name to distinguish it from the spurious article, is thus reviewed by the

"LANCET," November 20th, 1875.

"In Magnesilyne, we have now a Granular Effervescent Citrate of Magnesia *in fact* as well as in *name*. The application of the title Citrate of Magnesia to the *common preparation* is, in our opinion, thoroughly misleading, and should at once be discontinued."

"BRITISH MEDICAL JOURNAL," December 4th, 1875.

"Magnesilyne, or Magnesium Citrate, effervesces freely in water, is agreeable to take, and is the nearest approximation yet manufactured to a true Granular effervescent Citrate of Magnesia. It is also very portable, and will therefore, we doubt not, be found useful by medical men who find it necessary to prescribe magnesia in the course of their practice."

Magnesilyne, in bottles, 1s. and 2s. 6d. each, of all Chemists.

The best Tasteless Pills, of approved Formulae. Mackey's Pil. Peppine Co. is the most efficient and tasteless form of taking Peppine. Enema Syringes. Trusses, Surgical Instruments, and Druggists' Sundries. Clinical Thermometers. Electro-Medical Batteries, and Microscopes. The New Pliable "Adhesive" Plaster. Tasteless Cod Liver and Castor Oil.

MACKEY'S ABSORBENT PAPER (Registered), a Dressing for Suppurating Wounds and Ulcers of all kinds, as recommended by Dr. Crombie. It absorbs the thin irritating secretion exuding from the surface of the wound, and thereby promotes healthy granulation and cicatrization; is much lighter on the surface of sensitive sores than lint of any description, and can be removed from the wound easily without breaking down granulations, or causing bleeding or pain, because it has little tendency to adhere; and when adhesion does take place, it is overcome by simply soaking the absorbent paper with water. *The absorbent paper requires to be wetted in water before application.* It sucks up from the discharging surface the thin acid secretion which, by destroying the surrounding tissues, is the active agent in enlarging the wound when it is allowed to remain for any time in contact with the parts. Ordinary lint is a very imperfect absorbent, and hence keeps the discharge in contact with the surface instead of removing it.

MACKEY'S MEDICATED ABSORBENT FLOCKS (Registered), price 2s. 6d. per lb. (Medicated in a solution of carbolic acid and chlorate of potash), is a valuable antiseptic dressing for cancerous, lupoid, and syphilitic ulcers; is highly recommended for the absorption of uterine and other discharges, &c., to be used in the same way as charpie.

ORDERS BY POST, for Home use and Export, will be esteemed, and will receive prompt and careful attention. Special terms for Hospitals, Dispensaries, and large quantities.

JOHN B. MACKEY, late a Partner in the firm of Gale and Co., and connected with that business thirty-seven years, still carries on his business as a Wholesale Druggist and Manufacturing Chemist, at 1 and 2, BOUVERIE STREET, under the style of MACKEY & CO., and solicits the favour of orders by post or otherwise. Lists, Quotations, and Samples forwarded by post. A Register kept of Partnerships and Practices for Disposal and Assistants requiring situations.

DR. J. COLLIS BROWNE'S CHLORODYNE.

CAUTION.—The extraordinary medical reports on the efficacy of Chlorodyne render it of vital importance that the public should obtain the genuine, which bears the words, "**DR. J. COLLIS BROWNE'S CHLORODYNE**" on the Government Stamp.

Vice-Chancellor Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of Chlorodyne, that the whole story of the Defendant Freeman was deliberately untrue.

Lord-Chancellor Selborne and Lord Justice James stated that the Defendant had made a deliberate misrepresentation of the decision of Vice-Chancellor Wood.

Chemists throughout the land will confirm this decision, that Dr. J. COLLIS BROWNE was the inventor of Chlorodyne.

It was proved in Court, on affidavit by Mrs. Forbes of Paris, that the testimonial published in the *Times*, November 14th, 1865, speaking of the great efficacy of Chlorodyne in Cholera, referred to Dr. J. COLLIS BROWNE's Chlorodyne, and that she never used any other; that she had written to the Defendant Freeman to that effect, notwithstanding which notice the Defendant publishes the said testimonial as referring to his medicine.

The Editor of the *Medical Times*, in his report on Chlorodyne, January 13th, 1866, gives information that the Chlorodyne referred to was the medicine introduced by a retired Army Medical Officer, which was Dr. J. COLLIS BROWNE; still this is published by the Defendant as testimony to his medicine.

Numerous affidavits from eminent Physicians and others were produced in Court, stating that Dr. J. COLLIS BROWNE was the inventor of Chlorodyne, and that when prescribing they mean no other.

AËRATED MINERAL ACID WATER, LITHIA WATER,

OF THE BRITISH PHARMACOPŒIA, AND OTHER AËRATED WATERS,

PREPARED BY BLAKE, SANDFORD, & BLAKE,
Pharmaceutical Chemists, 47, Piccadilly,

The Original Makers of Potash Water, Lithia Water, and Mineral Acid Water.

Extract from *British Medical Journal*, Oct. 31st, 1868.

"Blake's Soda Water has been repeatedly examined. Each of four bottles obtained from the maker has been found to be accurately of the Pharmacopœia strength."

Pure Water highly impregnated with Carbonic Acid.

Soda Water, containing 15 grains in each bottle.

Potash, 15 grains (Bicarbonate).

Citrate of Potash, 30 grains.

Lithia, 2 grains, and 5 grains, either by itself or in combination with Bicarbonate of Potash or Phosphate of Ammonia.

Ammonia, 10 grains (Carbonate).

Seltzer and Vichy Waters.

Aërated Mineral Acid Water, a tonic much approved by the Profession, and more refreshing than any effervescing beverage hitherto prepared.

Pyrophosphate of Iron Water.

CITRATE OF LITHIA.

To meet the increasing employment of Lithia in the treatment of Gout, Gravel, &c., Messrs. BLAKE, SANDFORD, and BLAKE prepared a Citrate of the Alkali, which has been since introduced into the British Pharmacopœia; the Carbonate being very insoluble is difficult of administration, except in the form of an Aërated water. This Salt is extremely soluble, nearly tasteless, and easy of decomposition the system. Dose from 5 grains upwards.

GUALACATE OF LITHIA.

The value of the combination of Lithia with Gualacum will at once present itself to the professional man. This is usually administered in the form of pills, the ordinary dose being from 2 to 5 grains.

ESTABLISHED 1835.

BRAND & CO.'S SPECIALTIES FOR INVALIDS.

CONCENTRATED BEEF TEA.

This article contains all the soluble ingredients of the best beef, and may be taken by the most delicate stomach with perfect safety. BRAND & Co. have the honour to state that, for many years past, the most eminent of the Medical Profession have constantly prescribed their BEEF-TEA and other preparations as peculiarly adapted for Invalids. It will keep in any climate.

DIRECTIONS FOR USE.—Cut in small pieces an ounce (more or less, as circumstances require), and dissolve in half a pint of boiling water; re-boiling adds to the flavour.

THE CONCENTRATED CHICKEN and MUTTON BROTHS are also offered by BRAND & Co. with perfect confidence, resting on the favourable results which have attended the use of them in very critical cases.

ESSENCE OF BEEF.

"BRAND'S Essence of Beef can hardly be called a new invention, seeing that it has now been in use for a number of years, but only in the hands of a select few. Like many other things, it had a small beginning, but now that the proprietors have entered on its manufacture on a large scale, and are prepared to supply it in almost any quantity, we feel it our duty to make the existence of such an admirable preparation more widely known. This we do all the more readily from a knowledge that the preparation is not so extensively used as it deserves to be, from the sole reason that its value is not so generally appreciated as it might be, even if its existence is known and recognised. Moreover, having recently had to employ it on a larger scale and over a longer period than usual, we are the more vividly impressed with its rare merits. This Essence of Beef consists of the juice of the meat, extracted solely by heat, without the addition of water or any other element. In the tin it ordinarily assumes the consistence of a thin jelly, and is best exhibited cold, a teaspoonful being given at a time. Used in this way, a patient may be supported and actually gain strength with no other aliment whatever, and that, too, when the digestive and bodily powers are at the lowest possible ebb. This is no mere matter of theory or *à priori* reasoning, but a matter of unimpeachable experience; and on that ground alone we take leave most earnestly to commend it to our professional brethren."—*Medical Times and Gazette*, page 704, June 27, 1874.

BEEF TEA JELLY.

This article is Pure Beef Tea, of about three times the usual strength, and will be found very beneficial to Invalids.

FIBROUS EXTRACT OF MEAT.

This extract contains in a concentrated form all the *nutritious* elements of the meat, differing from other preparations in retaining most of the fibrine and a percentage of fat. It will be found both palatable and nutritious, its flavour being almost identical with that of the meat.

TURTLE JELLY, CALF'S-FOOT JELLY

Are recommended by B. and Co. as suitable for invalids. The former is made from the pure calipash of the Turtle.

TURTLE SOUP,

Prepared by BRAND & Co. "Expressly for Invalids," will be found very delicate in flavour and highly nutritive.

SAVOURY MEAT LOZENGES.—Travellers and others will find in these lozenges substantial support in a very simple and convenient form.

UNDER HER MAJESTY'S ESPECIAL PATRONAGE.

ROYAL GERMAN SPA, BRIGHTON.

The bottled waters are sold at the Pump-room; and by the most respectable houses in London and the Provincial Towns, where Prospectuses, with the highest Medical Testimonials, may be obtained gratis.

CAUTION.—Owing to the use of Struve's bottles by other parties attempting imitations, sold as "BRIGHTON Seltzer," "BRIGHTON Vichy," &c., an analysis of some of which has shown an utter disregard of their true chemical composition, please to observe that STRUVE'S name is on the label, and red-ink stamp affixed to every bottle of Struve's manufacture.

A recent Author, in his work on "The Spas of Europe," says:—"If artificial mineral waters are prescribed, we should insist on STRUVE'S alone being used."

VOSE'S PATENT HYDROPULT.

A PORTABLE FIRE ANNIHILATOR.

The best article ever invented for watering gardens, &c., weighs but 8 lbs., and will throw water 50 feet.

LOYSEL'S PATENT HYDROSTATIC

TEA AND COFFEE PERCOLATORS.

These Urns are elegant in form, are the most efficient ones yet introduced, and effect a saving of 50 per cent. The *Times* newspaper remarks: "M. Loysel's hydrostatic machine for making tea or coffee is justly considered as one of the most complete inventions of its kind."

Sold by all respectable Ironmongers. More than 200,000 now in use.

SCHWEITZER'S COCOATINA.

Anti-dyspeptic Cocoa or Chocolate Powder.

Guaranteed Pure Soluble Cocoa of the finest quality, without admixture.

THE FACULTY pronounce it the most Nutritious, perfectly Digestible Beverage for Breakfast, Luncheon, or Supper,

And it is highly commended by the entire Medical Press.

COCOATINA consists solely of the finest Cocoa Beans, with the excess of Fat extracted, and is four times the strength of Cocos *thickened* yet weakened with Starch. It ~~EXISTS~~ IN ALL CLIMATES, is made instantaneously, and is palatable without milk; specially prepared for EXPORT, in air-tight tins. HOSPITALS and CHARITIES on Special Terms.

Retailed in Tins, at 1s. 6d., 3s., 4s., by Chemists, Grocers, &c. Samples free by Post.

Wholesale by H. SCHWEITZER & CO., 10, Adam Street, London, W.C.
AND ALL WHOLESALE HOUSES.

PURE SOLUBLE COCOA.

VAN HOUTEN'S COCOA has been introduced for some years as the only guaranteed pure Soluble Cocoa, and by all who are now acquainted with it it is appreciated as far superior to any other Cocoa in the market.

Most of the other Cocos are mixtures of Cocoa, Starch, Sugar, &c., and a comparison of them with **VAN HOUTEN'S COCOA** will at once teach the most vitiated in taste—

That a pure Cocoa is something very different from what they are supplied with as Cocoa.

No reference is made here to the great praise bestowed on **VAN HOUTEN'S COCOA** by the *Lancet* and other competent authorities, but the public may judge for themselves by obtaining, free of charge, sample bottles, containing sufficient for six large cups, from their own grocer or chemist, or from the chief Depot of Van Houten's Cocoa, at 6 and 7 Coleman Street, London, E.C.

VAN HOUTEN'S COCOA will prove to them—

That Cocoa can be both pure and soluble.

That it can be made simply with boiling water instantaneously.

That it forms one of the most delicious beverages.

That such pure Cocoa is the most nutritious article of food, and is easily assimilated by ever so delicate a digestion.

That one pound is sufficient for 100 breakfast cups.

That, in short, it excels in quality and relative cheapness every other known Cocoa.

A little acquaintance with Van Houten's Cocoa will also teach its importance as a stimulant and life preserving commodity, and its value can hardly be overrated when people have learned to understand that one can live in cases of need, for days and weeks on pure soluble Cocoa (and if no boiling water is at hand by eating it). Therefore, whether at sea, in mines, in the camp, or on the march one can always guard oneself against starvation.

For the poor such Cocoa will become an inestimable boon, as thousands can be provided with this wholesome and agreeable drink at a moment's notice and at a very small cost.

Those interested in spreading temperate habits are particularly invited to study the merits of **PURE SOLUBLE COCOA**, and it may be predicted if once the public are familiar with the true qualities of Cocoa, that Cocoa will become one of the most popular drinks.

Sold (full weight) in 1lb., ½lb., and ¼lb. Tins, 3s. 9d., 2s., and 1s., by Grocers and Chemists.

Each Tin, as well as each sample bottle bears as guarantee the signature of C. J. VAN HOUTEN and Zoon.

ILLUSTRATED PRICE LIST ON APPLICATION.

BAILEY'S IMPROVED BELTS

Improve the Figure and support the Abdominal Muscles.

They consist of a strong elastic front of the softest silk, firm enough to give the most efficient support without inconvenient constraint. At the lower part are straps which can be regulated at pleasure, and which give a thoroughly lifting support to the abdominal parietes, thereby entirely relieving, and as nearly as possible corresponding, to the abdominal muscles. In Silk 42s., in Cotton 31s. 6d., others also at 15s., 18s., 21s., 25s.

For measurement, send the circumference, at A, B, C.

BAILEY'S ELASTIC STOCKINGS, KNEE CAPS, &c.,

Made to measure and accurately fitted, upon which the utility of these articles depends. They are made of the softest materials and are light, porous, and very elastic, and are considered the best invention for giving efficient support in all cases of weakness, varicose veins, &c.

Warranted to wash.

Prices—6s. 6d., 10s. 6d., 14s. 6d., 17s. 6d. each, post free.

For measurement send the circumferences as shown by the letters in the diagram.

BAILEY'S

Improved Imperceptible Truss

Is the lightest extant, (weight under 3 oz.) Made of every degree of strength, easily worn and perfectly effective.

Single 18s., double 30s.

BAILEY'S

Improved Umbilical Truss,

The only one that can be worn with perfect ease. The pad being attached to the springs by hinges, admits of free exercise or the recumbent posture without fear of displacement.

Price 42s.

*For Varicose Veins, Weak, Swollen, or Dropsical Affections,
Accident to the Knee-Joint, Increase of the Synovial Fluid,
and all Rheumatic and Gouty Affections.*

SHOOLBRED and CO. beg particularly to call the attention of the Profession to the improvements they have made in the above articles, whereby all the objections hitherto existing have been overcome.

SHOOLBRED and CO. have likewise made arrangements for the manufacture of all Surgical Bandages in India-rubber, vulcanized on a principle whereby the elasticity is preserved and not affected by climate, the Bandages being all made from patterns taken from each particular case. A perfect fit is secured thereby, preventing the many evils arising from undue pressure being applied to any part, which must always be the case providing the Bandage is not adapted to each particular case.

Prices, which will be found as low as other makers', notwithstanding the advantages offered, together with directions for measurement, will be sent on application, per return of post.

SALMON'S ABDOMINAL BELT.

The Belt is light in texture, and affords a more lifting support than any hitherto made, completely supporting the lower part of the Abdomen. It is recommended in cases of Obesity, Tumour, Prolapsus Uteri, and during and after Pregnancy. Mrs. Salmon attends upon Ladies.

In Silk Elastic, and Thread ditto, from

17s. to 50s.

SALMON'S OBSTETRIC BINDER.

The Binder is a substitute for the towel generally used immediately after labour. It is made of strong linen, and dispenses with the usual pinning. The advantages of the Binder are facility of application, combined with comfort and greater efficiency.
